ISSUE 4

JULY 2019

Centenary Review

- 413 Integrity in the fresh produce supply chain: solutions and approaches to an emerging issue
Louise Manning and James Monaghan

Articles

- 422 Sex-linked AFLP marker identification in dioecious Betelvine (*Piper betle* L.)
Shalini Goyat, Anita Grewal, Devendra Singh, R. S. Katiyar, S.K. Tewari, R.C Nainwal and K. Hima Bindu
- 428 Genome-wide identification and involvement of litchi SPL genes in flowering in response to cold and leaf maturity
Qiu-Sheng Xiao, Zuan-Xian Su, Hou-Bin Chen and Ji- Yuan Shen
- 441 Plant regeneration of *Nerium oleander* L. from alginate-encapsulated shoot explants after short-term cold storage
Stefanos Hatzilazarou, Stefanos Kostas and Athanasios S. Economou
- 448 Transpiration efficiency of Amaranth (*Amaranthus* sp.) in response to drought stress
Norain Jamalluddin, Festo J Massawe and Rachael C Symonds
- 460 Maintaining product quality in raisins throughout the introgression of powdery mildew resistance
Craig A. Ledbetter and Steven A. Lee
- 468 Identification of natural weed hosts of *Cucumber mosaic virus* subgroup-I and the absence of seed transmission in weed hosts in Pakistan
Khalid Pervaiz Akhtar, Mariam Anwer, Muhammad Yussouf Saleem, Sumaira Yousaf, Najeed Ullah, Hafiza Massoma Naseer Cheema and Nighat Sarwar
- 475 *Papaya yellow leaf curl virus*: A newly identified begomovirus infecting *Carica papaya* L. from the Indian Subcontinent
Chitra Nehra, Avinash Marwal, Rakesh Kumar Verma, Megha Mishra, Pradeep Sharma and R. K. Gaur
- 481 Relationships between canopy size, light interception and productivity in conventional avocado planting systems
John D. Wilkie, Janine Conway, Jarrad Griffin and Hanna Toegel
- 488 Removal of flowers or inflorescences affects 'Barnea' olive fruitlet post-anthesis abscission
S. Goldental-Cohen, I. Biton, Y. Many, K. Tavrizov, A. M. Dourou, H. Zemach, P. Tonutti, Z. Kerem, B. Avidan, O. Sperling and G. Ben-Ari
- 499 Application of 1-MCP as a liquid formulation prevents ethylene-induced senescence in *Phalaenopsis* orchid flowers and *Kalanchoë blossfeldiana* inflorescences
Christian Gehl, Mohammad Mahdi Jowkar, Julian Wagenhaus and Margrethe Serek
- 507 Effect of crop load, fruit position and shoot vigour on yield and quality of *Annona atemoya* × *Annona squamosa* in India
Subhash Chander and Reju M. Kurian
- 513 Improving the postharvest performance of cut spray 'Prince' carnations by vase treatments with nanosilver and sucrose
Xiaohui Lin, Hongmei Li, Shuqin Lin, Manlin Xu, Jiping Liu, Yang Li and Shenggen He
- Reviews**
- 522 Genetics of bulb colour variation and flavonoids in onion
Kiran Khandagale and Suresh Gawande
- 533 Recent trends in muskmelon (*Cucumis melo* L.) research: an overview
Hament Thakur, Shikha Sharma and Manisha Thakur
