EDITORIAL

- 103** Digital technologies will profoundly impact the way we grow and distribute food: here's how
Marie-Agnès Jouanjean

RESEARCH ARTICLES

- 105** Antimicrobial efficacy of household sanitizers against artificially inoculated *Salmonella* on ready-to-eat spinach (*Spinacia oleracea*)
Agnes Kilonzo-Nthenge and Siqin Liu
- 113** Different expression of kiwifruit ethylene-related genes during low storage temperatures
Mansour Afshar-Mohammadian, Seyyed Fatemeh Fallah and Mohammad Hossein Rezaeost
- 121** The effect of pumpkin flour on quality and acoustic properties of extruded corn snacks
Natalia Poliszko, Przemysław Łukasz Kowalczewski, Iga Rybicka, Piotr Kubiak and Stefan Poliszko
- 131** Thermal, physical and morphological properties of durum wheat
Ewa Ropelewska, Piotr Zapotoczny, Kamila Sabina Bożek and Krystyna Żuk-Gołaszewska
- 139** Effect of grinding on thermal properties of wheat grain
Ewa Ropelewska

- 147** Purification and analysis of DNA from low DNA content food samples
M. Esra Altuntop Yayla, Canan Ekinci Doğan and Şerife Sarioğlan

METHODS

- 157** Characterization of retroviral vector derived DNA-isoforms by PCR and sequencing
Thorsten Stellberger, Iris Stockmar, Johannes Draxler, Prabir Dhar, Melanie Pavlovic, Martina Anton, Nina Koehler, Anna Dinkelmeier, Maren Haase, Markus Schick, Ulrich Keller, Ulrich Busch and Armin Baiker
- 167** A rapid and sensitive method to determine potassium permanganate in meat
Yuriy Balji, Zhanat Adilbekov, Yuliya Scheiko, Symbat Seidenova, Gulzhikhan Ismagulova and Galia Zamaratskaia
- 173** Terephthalic acid determination in mineral water stored in PET bottles using a novel magnetic dispersive micro solid-phase extraction followed by high-performance liquid chromatography
Samir Hamidi and Mahboob Nemati
