

JOURNAL OF BERRY

Volume 9, Number 2

CONTENTS

<i>T.R. Jaimes-Gualdrón, J.A.A. Ceballos and B.A. Rojano</i> Oxidative stability of a dairy product like yogurt, with anthocyanin extracts of corozo (<i>Bactris guineensis</i>) and grape (<i>Vitis vinifera</i>)	141
<i>A. Hernández-Bautista, R. Lobato-Ortiz, J.J. García-Zavala, J.A.M. Contreras, J.L. Chávez-Servia, M.R. Rodríguez, S. Cruz-Izquierdo and J.A.G. Velázquez</i> Adaptability of raspberry primocane genotypes in a tropical environment and its implication in the raspberry production in Mexico	155
<i>S. Sánchez, J. Grez, E. Contreras, P.M. Gil and M. Gambardella</i> Physiological response and susceptibility of strawberry cultivars to the charcoal rot caused by <i>Macrophomina phaseolina</i> under drought stress conditions	165
<i>R.S. Khan, W. Asghar, N. Khalid, W. Nazir, M. Farooq, I. Ahmed and Q.A. Syed</i> Phalsa (<i>Grewia asiatica</i> L.) fruit berry a promising functional food ingredient: A comprehensive review	179
<i>J.M.O. Palacio, M.C. Zamora and M.C. Lanari</i> Physicochemical and dynamic sensory characterization of a Yerba mate/Blackcurrant instant beverage powder rich in natural antioxidants	195
<i>J.M. Chafer, C. Mathon, C.K. Larive, D.J. Merhaut, L.W. Tinoco, P.A. Mauk, Z. Jia and J.E. Preece</i> Juice quality traits, potassium content, and ¹ H NMR derived metabolites of 14 pomegranate cultivars	209
<i>G. Perpetuini, I. Donati, A. Cellini, L. Orrú, L. Giongo, B. Farneti and F. Spinelli</i> Genetic and functional characterization of the bacterial community on fruit of three raspberry (<i>Rubus idaeus</i>) cultivars	227
<i>F. Balducci, L. Capriotti, L. Mazzoni, I. Medori, A. Albanesi, G. Borraccini, F. Giampieri, B. Mezzetti and F. Capocasa</i> The rootstock effects on vigor, production and fruit quality in sweet cherry (<i>Prunus avium</i> L.)	249
<i>R. Muceniece, L. Klavins, J. Kviesis, K. Jekabsons, R. Rembergs, K. Saleniece, Z. Dzirkale, L. Saulite, U. Riekstina and M. Klavins</i> Antioxidative, hypoglycaemic and hepatoprotective properties of five <i>Vaccinium</i> spp. berry pomace extract	267
<i>M. Soto, A.M. Pérez, M. del Milagro Cerdas, F. Vaillant and Ó. Acosta</i> Physicochemical characteristics and polyphenolic compounds of cultivated blackberries in Costa Rica	283
<i>M.M. El-Mogy, R.A. Ludlow, C. Roberts, C.T. Müller and H.J. Rogers</i> Postharvest exogenous melatonin treatment of strawberry reduces postharvest spoilage but affects components of the aroma profile	297
<i>S. Canturk, B. Kunter and H.N. Buyukkartal</i> Effects of kaolin particle film on berry histological properties in two table grape cultivars (<i>V. vinifera</i> L.)	309
<i>B. Jiang, S. Zheng, L. An, J. Guo and T. Asakawa</i> Changes in striatal dopamine transporter and tyrosine hydroxylase expression associated with fatigue and their reversal by blueberry juice	321
<i>M.M. El-Mogy, M.R. Ali, O.S. Darwish and H.J. Rogers</i> Impact of salicylic acid, abscisic acid, and methyl jasmonate on postharvest quality and bioactive compounds of cultivated strawberry fruit	333
<i>J. Čanadanović-Brunet, V.T. Šaponjac, S. Stajčić, G. Četković, V. Čanadanović, T. Čebović and J. Vulić</i> Polyphenolic composition, antiradical and hepatoprotective activities of bilberry and blackberry pomace extracts	349
