

PLANT, SOIL AND ENVIRONMENT

Volume 65, No. 1

January 2019

CONTENTS

Liu Z., Sun K., Zheng B., Dong Q.L., Li G., Han H.F., Li Z.J., Ning T.Y.: Impacts of straw, biogas slurry, manure and mineral fertilizer applications on several biochemical properties and crop yield in a wheat-maize cropping system	1
Xiao Y.S., Hu Q.L., Li H.G., Zhong Q., Zeng W.A., Gu S.S., Cai H.L., Tan L.: Effect of 2,4,6-trimercaptotriazine, trisodium salt, nonahydrate on heavy metals bioavailability in soils and accumulation in tobacco	9
Zhang B.J., Wei Y.H., Yan S., Shi H.X., Nie Y.Y., Zou G.X., Zhang X.X., Luo L.: Characterization of selenium accumulation of different rice genotypes in Chinese natural seleniferous soil	15
Krček V., Baranyk P., Brant V., Pulkrábek J.: Influence of crop management on formation of yield components of winter oilseed rape	21
Káš M., Mühlbachová G., Kusá H.: Influence of crop management on formation of yield components of winter oilseed rape	27
Wei K., Chen Z.H., Zhang X.P., Chen L.J.: Phosphorus forms and their distribution under long-term no-tillage systems	35
Michalska-Klimczak B., Wyszynski Z., Pačuta V., Rašovský M., Leśniewska J.: Impact of sugar beet seed priming on molasses components, sugar content and technological white sugar yield	41
Kuklová M., Hniličková H., Hnilička F., Pivková I., Kukla J.: Impact of expressway on physiology of plants and accumulation of risk elements in forest ecosystems	46
