Research Articles

- Fear alone reduces energy processing by resident 'keystone' prey threatened by an invader; a non-consumptive effect of 'killer shrimp' invasion of freshwater ecosystems is revealed
C. MacNeil and M. Briffa
- Heterogeneity in millipede communities (Diplopoda) within a forest–forest edge–meadow habitat complex
S. Stašiov, V. Kubovčík, M. Čiliak, A. Diviaková, I. Lukáčik, V. Pätoprstý and M. Dovciak
- Earthworms contribute to ecosystem process in no-till systems with high crop rotation intensity in Argentina
J.C. Bedano, F. Vaquero, A. Domínguez, M.P. Rodríguez, L. Wall and P. Lavelle
- Alpine grassland degradation reduced plant species diversity and stability of plant communities in the Northern Tibet Plateau
C. Wang, M. Wei, B. Wu, S. Wang and K. Jiang
- Tolerance to severe browsing of three shrub species on Mediterranean islands
J. Bartolomé Filella, E. Baraza Ruíz, M^a.C. Espunya Prat, E. Castells Caballé, L. Rivera Sánchez and M^a.J. Broncano Atencia
- 1 Dietary composition and selection in the stream-breeding anuran assemblage from a tropical wet forest in eastern Mexico
R. Luría-Manzano and A. Ramírez-Bautista
- 6 Complex effects of nonpollinating wasps on the relationship between pollinating wasp and seed production in *Ficus andicola*
W. Cardona and G.H. Kattan
- 14 Seabirds modify trophic groups, while altitude promotes xeric-tolerant species of Tardigrada in the high Arctic tundra (Svalbard archipelago)
K. Zawierucha, K. Zmudczyńska-Skarbek, N. Guil and M. Bogdziewicz
