

EDITORIAL

569 **Benefits of trees**

COMMENTS

570 **Why setting a climate deadline is dangerous**

Shinichiro Asayama, Rob Bellamy, Oliver Geden, Warren Pearce and Mike Hulme

572 **Is adaptation success a flawed concept?**

Lisa Dilling et al.

BOOKS & ARTS

575 **The political economy of solar power**

Jennifer M. Bernstein

576 **On our bookshelf**

RESEARCH HIGHLIGHTS

577 **Our choice from the recent literature**

NEWS & VIEWS

578 **Climate adaptation: The limits of capacity building**

Mark Lubell and Meredith T. Niles

579 **Sequential extremes: Tropical cyclones and heatwaves**

Ning Lin

PERSPECTIVE

581 **Persecuting, protecting or ignoring biodiversity under climate change**

Brett R. Scheffers and Gretta Pecl

LETTERS

587 **The impacts of a capacity-building workshop in a randomized adaptation project**

Francisco Alpizar, María Bernedo Del Carpio, Paul J. Ferraro and Ben S. Meiselman

→N&V p578

592 **Prospects for powering past coal**

Jessica Jewell, Vadim Vinichenko, Lola Nacke and Aleh Cherp

598 **Decadal global temperature variability increases strongly with climate sensitivity**

Femke J. M. M. Nijse, Peter M. Cox, Chris Huntingford and Mark S. Williamson

602 **An emerging tropical cyclone-deadly heat compound hazard**

T. Matthews, R. L. Wilby and C. Murphy

→N&V p579

- 607 **Arctic greening and bird nest predation risk across tundra ecotones**
Rolf A. Ims et al.
- 611 **A simple model predicts how warming simplifies wild food webs**
Eoin J. O'Gorman et al.
- 617 **Widespread increase of boreal summer dry season length over the Congo rainforest**
Yan Jiang et al.
- 623 **Global loss of climate connectivity in tropical forests**
Rebecca A. Senior, Jane K. Hill and David P. Edwards
- 627 **Niche syndromes reveal climate-driven extinction threat to island endemic conifers**
Kyle C. Rosenblad, Daniel L. Perret and Dov F. Sax
- 632 **Management for network diversity speeds evolutionary adaptation to climate change**
Timothy E. Walsworth et al.
- 637 **Fish die-offs are concurrent with thermal extremes in north temperate lakes**
Aaron Till, Andrew L. Rypel, Andrew Bray and Samuel B. Fey
