PLANT DISEASE RESEARCH

VOLUME 34(2)

CONTENTS

Presidential Address

- Development of prediction models for the management of rapeseed-mustard diseases-
Current scenario 81
Naresh Mehta

Fungal Pathology

- Evaluation of bio-pesticides for effective and ecofriendly management of French bean rust 113
Banita Devi, Gurvinder Singh and S.K. Gupta
- Management of leaf spot (*Cercospora canescens*) and powdery mildew (*Erysiphe polygoni*)
of cowpea through fungicides 119
D. K. Banyal, Ashima Thakur and Amar Singh
- Resistance in soybean varieties against charcoal rot disease caused by *Macrophomina phaseolina* 124
Pawan K. Amrate, M. K. Shrivastava and M. S. Bhale
- Effect of plant age on vulnerability of maize to charcoal rot 129
Khalilullah Ahmadi and Harleen Kaur

Bacteriology

- Relationship between extracellular polysaccharides production and aggressiveness of 135
Xanthomonas axonopodis pv. *punicae* causing bacterial blight of pomegranate
Mandeep Singh Hunjan and Ahmad Walid Nadeem

Virology

- Screening of capsicum exotic and indigenous lines for resistance against *Pepper mild mottle virus* 143
Nidhi Kumari, Priyanka Ben Patel and P.N. Sharma

Nematology

- Effect of combined application of *Paecilomyces lilacinus* and organic amendments on the 148
management of *Tylenchulus semipenetrans*
Jaspreet Kaur Basati, V.K. Kaul and Sharndeeep Kaur

Short Communication

- Chemical control of neckblast of rice 153
Ram Singh

Abstracts of research papers - Proceedings of the National Symposium on <i>Mitigation of Emerging Plant Diseases Under Changing Climate Scenario</i> held at Department of Plant Pathology, Centre for Plant Protection Studies, Tamil Nadu Agricultural University, Coimbatore-641003 on 16 th -17 th December, 2019	155
Proceedings of the General Body Meeting	243
Book Reviews:	
Phytopathogenic Bacteria and Plant Diseases <i>B.S. Thind</i>	249
Powdery Mildew Disease of Crucifers: Biology, Ecology and Disease Management <i>G.S. Saharan, Naresh K. Mehta and Prabhu Dayal Meena</i>	250
News	251
Author Index	252
