

BrewingScience

Yearbook 2019

Contents

A flexible IT infrastructure for the integration of smart-glasses into the brewing laboratory as a digital support for standard analysis workflows

J. Austerjost, M. Bargholz, M. Porr, D. Geier, T. Becker, D. Marquard, P. Lindner, T. Scheper and S. Beutel 1

Investigating the evolution of free staling aldehydes throughout the wort production process

M. Ditych, W. Filipowska, G. De Rouck, B. Jaskula-Goiris, G. Aerts, M. L. Andersen and L. De Cooman 10

Model calculation of a solar assisted system for a malt kiln

M. Hauner, K. Eichhorn, S. Vearasilp, S. Thanapornpoonpong and V. Changrue..... 18

Brewer's yeast research – a keynote paper – part 1

G.G. Stewart..... 31

The complexity of yeast extracts and its consequences on the utility in brewing: A review

F. F. Jacob, M. Michel, M. Zarnkow, M. Hutzler and F.-J. Methner..... 50

High Throughput Sequencing as a novel quality control method for industrial yeast starter cultures

M. Michel, L. A. Hardulak, T. Meier-Dörnberg, J. Morinière, A. Hausmann, W. Back, G. Haszprunar, F. Jacob and M. Hutzler 63

Resurrection of the lager strain *Saccharomyces pastorianus* TUM 35

M. Hutzler, L. Narziß, D. Stretz, K. Haslbeck, T. Meier-Dörnberg, H. Walter, M. Schäfer, T. Zollo, F. Jacob and M. Michel 69

The power of sour – A review: Old traditions, new opportunities

S. Bossaert, S. Crauwels, G. De Rouck and B. Lievens 78

Strain specific performance of active dry yeast for fermentation of very high gravity wort

E. Abbott, D. Villegas, S. Van Zandycke and T. Fischborn..... 89

Brewer's yeast research – a keynote paper – part 2

G.G. Stewart..... 94

Transfer of flonicamid and its metabolites (TFNA, TFNG and TFNA-AM) from hops into beer during wort boiling and during dry hopping

D. Dixius, S. Hanke, G. Stettner and A. Lagemann 109

The impact of dry hopping on selected physical and chemical attributes of beer

S. Coçuzza, M. Zarnkow, A. Stallforth, F. Peifer and F. Jacob..... 118

Investigating the potential for re-using „spent“ dry-hops in the brew kettle

D. G. Hauser, A. Stokholm and T.H. Shellhammer 125

Possibility of monitoring beer haze with static light scattering, a theoretical background

T. Teumer, M. Rädle and F.-J. Methner..... 132

Rapid method to assess the colloidal haze stability of beer

M. Kupetz, M. Frankerl, M. Gastl and T. Becker..... 141

Development of supercritical CO₂ extracts for flavored beer

T. Inui, D. Yonezawa and H. Abe 147

Boosting yeast propagation via yeast extract supplementation

F. F. Jacob, M. Hutzler, M. Michel and F.-J. Methner 157

Effect of autolytic by-products on PCR-detection of beer spoilers in yeast slurry

J. Schönling, E. Pick, U. Peter and S. Britton 168

Dry hopping potential of Eureka!, a new hop variety

C. Schmidt, M. Biendl, S. Hanke, K. Reglitz and M. Steinhaus ... 173

Screening of brewing yeast β -lyase activity and release of hop volatile thiols from precursors during fermentation

M. Michel, K. Haslbeck, F. Ampenberger, T. Meier-Dörnberg, D. Stretz, M. Hutzler, M. Coelhan, F. Jacob and Y. Liu 179

New International Calibration Standard (ICS-A1) for HPLC Analysis of Alpha-Acids in Beer

M. Biendl and B. Foster..... 187

Irrigation scheduling for *Humulus lupulus* (L.) cv. 'Nugget': climate and soil-plant relations

M. Fandiño, E.M. Martínez, B.J. Rey, J. Valladares, J.L. Olmedo-Nadal, J.M. Mirás-Avalos and J.J. Cancela 188

Behaviour of hop-derived branched-chain fatty acids during fermentation and their sensory effect on hopped beer flavours

K. Takoi 196

Gene structure and allelic variations of hop (*Humulus lupulus* L.) bitter acid biosynthesis genes

M. H. Hagemann, U. Born, G. Weber and J. N. Wiinsche 207

Reproducibility Trials in a Research Brewery and Effects on the Evaluation of Hop Substances in Beer – Part 3: Transfer Rates of Aroma Compounds from Hops to Beer and their Ageing Behaviour

A. Gahr, A. Forster, J. De Clippeleer and F. Van Opstaele 217
