

PLANT, SOIL AND ENVIRONMENT

Volume 65, No. 11

November 2019

CONTENTS

Fan Y.L., Zhang W.N., Kang Y.C., Zhao Z.P., Yao K., Qin S.H.: Effects of ridge and furrow film mulching on soil environment and yield under potato continuous cropping system	523
Král M., Dvořák P., Capouchová I.: The straw as mulch and compost as a tool for mitigation of drought impacts in the potatoes cultivation	530
Tripolskaja L., Asakaviciute R.: Effects of fertilisers on pulse crop productivity and nitrogen assimilation on acid soil	536
Schappert A., Linn A.I., Sturm D.J., Gerhards R.: Weed suppressive ability of cover crops under water-limited conditions	541
Liao P., Sun Y.N., Jiang Y., Zeng Y.J., Wu Z.M., Huang S.: Hybrid rice produces a higher yield and emits less methane	549
Zhou P.C., Wang S.B., Guo L.L., Shen Y., Han H.F., Ning T.Y.: Effects of subsoiling stage on summer maize water use efficiency and yield in North China Plains	556
Joshan Y., Sani B., Jabbari H., Mozafari H., Moaveni P.: Effect of drought stress on oil content and fatty acids composition of some safflower genotypes	563
