

PLANT, SOIL AND ENVIRONMENT

Volume 65, No. 9

September 2019

CONTENTS

Cao X.X., Bai L.Y., Zeng X.B., Zhang J.Z., Wang Y.N., Wu C.X., Su S.M.: Is maize suitable for substitution planting in arsenic-contaminated farmlands?	425
Béreš J., Bečka D., Tomášek J., Vašák J.: Effect of autumn nitrogen fertilization on winter oilseed rape growth and yield parameters	435
Bogunović I., Kovács P.G., Đekemati I., Kisić I., Balla I., Birkás M.: Long-term effect of soil conservation tillage on soil water content, penetration resistance, crumb ratio and crusted area	442
He J.N., Yu Z.W., Shi Y.: Effects of strip rotary tillage with subsoiling on soil enzyme activity, soil fertility, and wheat yield	449
Lv G.H., Han W., Wang H.B., Bai W.B., Song J.Q.: Effect of subsoiling on tillers, root density and nitrogen use efficiency of winter wheat in loessal soil	456
Ruley J.A., Tumuhairwe J.B., Amoding A., Opolot E., Oryem-Origa H., Basamba T.: Assessment of plants for phytoremediation of hydrocarbon-contaminated soils in the Sudd Wetland of South Sudan	463
Praus L., Száková J.: Role of sulphate in affecting soil availability of exogenous selenate (SeO_4^{2-}) under different statuses of soil microbial activity	470
