

## Contents

### Editorial

Eckart D. Gundelfinger, Christian Rosenmund and Dorothea Schulte

**Editorial — 193**

### Review articles

Dorothea Schulte, Christian Rosenmund and Eckart D. Gundelfinger

**Synapses, networks, brain development – funding basic neuroscience research in Germany by the Schram Foundation — 195**

Natalia L. Kononenko and Volker Haucke

**Neuronal functions of clathrin-associated endocytic sorting adaptors – from molecules to disease — 209**

Ira Milosevic

**Mechanisms of synaptic vesicle recycling provide a platform to explore mechanisms of neurodegeneration — 219**

Alexander Gottschalk

**Optogenetic analyses of neuronal networks that generate behavior in *Caenorhabditis elegans* — 227**

Robert Luck, Andromachi Karakatsani and Carmen Ruiz de Almodovar

**Direct contribution of angiogenic factors to neurodevelopment: a focus on angiopoietins — 239**

Jonas-Frederic Sauer and Marlene Bartos  
**The role of the dentate gyrus in mnemonic functions — 247**

### Presentation of scientific institutions

Marilen Macher

**Armin Schram: a sponsor of curiosity-driven brain research — 255**

### Nachrichten aus der Gesellschaft

**Göttinger Tagung der Neurowissenschaftlichen Gesellschaft 2021 — 259**

**NEU auf dasGehirn.info — 260**

**Methodenkursprogramm 2021 der NWG — 261**

**Neueintritte — 263**

**Ausblick — 263**
