

# CC GREEN Scanauftrag

**Auftragsnummer:** ZBMED-BN201028602-1  
**Auftragsdatum:** 28.10.20 - 06:00

---

**Signatur:** Z 5695

**Title:** Acta agriculturae Scandinavica : Section B, Soil and plant science

**ISSN:** 0906-4710  
**Erscheinungsjahr:** 2020  
**Erscheinungsort:** Abingdon [u.a.]  
**Band Heft:** 70(7)

**Bitte Inhaltsverzeichnis scannen!**

**CONTENTS**

**Articles**

- 541 Post-harvest residues of field pea/spring rye mixtures as a valuable source of biological nitrogen for winter triticale  
*Anna Płaza, Barbara Gąsiorowska and Emilia Rzążewska*
- 550 Toxicity of a secondary metabolite produced by *Simplicillium chinense* Sneh5 against the root-knot nematode *Meloidogyne incognita*  
*Di Zhao, Xiaofeng Zhu, Lijie Chen, Weiwei Liu, Jingsheng Chen, Shuo Wang, Jian Zang, Yuxi Duan and Xiaoyu Liu*
- 556 The severity of field pea diseases depending on sowing rate and variety  
*Margit Olle and Pille Sooväli*
- 564 Distribution and phenotypic characteristics of common bean (*Phaseolus vulgaris* L.) nodulating bacteria in diverse soils  
*Fanuel Kawaka and John Muoma*
- 572 The severity of diseases of faba bean depending on sowing rate and variety  
*Margit Olle and Pille Sooväli*
- 578 Effects of drainage intensity on water and nitrogen use efficiency and rice grain yield in a semi-arid marshland in Rwanda  
*Olive Tuyishime, Abraham Joel, Ingmar Messing, Francois Naramabuye, Muthiah Sankaranarayanan and Ingrid Wesström*
- 594 Genetic relationship among selected heat and drought tolerant bread wheat genotypes using SSR markers, agronomic traits and grain protein content  
*Zamalotshwa Thungo, Hussein Shimelis, Alfred Odindo, Jacob Mashilo and Admire Shayanowako*
