

JOURNAL OF THE AMERICAN SOCIETY FOR HORTICULTURAL SCIENCE

VOL. 145, NO. 5

CONTENTS

SEPTEMBER 2020

- | | | | |
|-----|---|-----|--|
| 281 | Characterization and Divergence Analysis of Duplicated <i>R2R3-MYB</i> Genes in Watermelon
Jin Wang, Yue Liu, Xueliang Chen, and Qiusheng Kong | 308 | Analysis of <i>PYL</i> Genes and Their Potential Relevance to Stress Tolerance and Berry Ripening in Grape
Yanxia Zhao, Guimei Qi, Fengshan Ren, Yongmei Wang, Pengfei Wang, and Xinying Wu |
| 289 | Genetic Diversity and Population Structure of Chinese <i>Corylus heterophylla</i> and <i>Corylus kweichowensis</i> Using Simple Sequence Repeat Markers
Tiantian Zhao, Wenxu Ma, Qinghua Ma, Zhen Yang, Lisong Liang, Guixi Wang, and Lujun Wang | 318 | Effect of Irrigation Water pH on the Performance of Healthy and Huanglongbing-affected Citrus
Lushan Ghimire, Davie Kadyampakeni, and Tripti Vashisth |
| 299 | Isolation of the Histone Lysine Methyltransferase Gene <i>PhSDG8</i> and Characterization of Function in Shoot Branching
Lili Dong, Tongrui Liu, Di Gao, Jing Li, and Jie Qian | | |
