|--|---------|
| GU, J., MARIA, M., FANG, Y., CHEN, X. & LIU, L.— Molecular and morphological characterisation of <i>Laimaphelenchus spiflatus</i> n. sp. (Nematoda: Aphelenchoididae) from China .....   | 843-853 |
| SWART, A., FOURIE, H., TIEDT, L.R. & RASHIDIFARD, M.— Description of <i>Calcaridorylaimus heynsi</i> n. sp. (Nematoda: Dorylaimidae) from Potchefstroom, South Africa .....  | 855-865 |
| RASHIDIFARD, M., BELLO, T.T., FOURIE, H., COYNE, D.L. & PEÑA-SANTIAGO, R.— Morphological and molecular characterisation of <i>Aporcelaimellus nigeriensis</i> sp. n. (Dorylaimida: Aporcelaimidae), a remarkable dorylaim from Nigeria .....   | 867-877 |
| EBERLEIN, C., EDALATI, A., ZHANG, R. & WESTPHAL, A.— A rapid bioassay for measuring nematode suppressive potential of anaerobic digestate .....  | 879-889 |
| GU, J., MARIA, M., FANG, Y., WANG, H. & ZHUO, K.— A new cystoid nematode, <i>Cryphodera japonicum</i> n. sp. (Nematoda: Heteroderidae), from the rhizosphere of Japanese <i>Podocarpus macrophyllus</i> .....  | 891-905 |
| ABD-ELGAWAD, M.M.M.— Can rational sampling maximise isolation and fix distribution measure of entomopathogenic nematodes? .....  | 907-916 |
| UPADHYAY, A. & MOHAN, S.— <i>In vivo</i> production of entomopathogenic nematodes suppressed by asymptomatic bacterial contaminants .....  | 917-925 |
| MWAMULA, A.O., KIM, Y.H., NA, H., AN, H.J., KIM, Y.H. & LEE, D.W.— Molecular characterisation and phylogenetic position of <i>Hemicycliophora labiata</i> Colbran, 1960, from turfgrass in Korea, with comments on its morphology .....  | 927-938 |
| MWAMULA, A.O., KABIR, M.F., LEE, G., CHOI, I.H., KIM, Y.H., BAE, E.-J. & LEE, D.W.— Morphological characterisation and molecular phylogeny of several species of Criconematina (Nematoda: Tylenchida) associated with turfgrass in Korea, as inferred from ribosomal and mitochondrial DNA ..... | 939-956 |
