Volume 16 - Number 1 - Pages 1 - 76 2020

## Contents

### ORIGINAL ARTICLES

- Dark CO<sub>2</sub> fixation into phospholipid-derived fatty acids by the cold-water coral associated sponge *Hymedesmia (Stylopus) coriacea* (Tisler Reef, NE Skagerrak)  
*Fleur C. van Duyl, Sabine K. Lengger, Stefan Schouten, Tomas Lundälv, Dick van Oevelen and Christina E. Müller* 1
- Bacterial composition of sponges, sediment and seawater in enclosed and open marine lakes in Ha Long Bay Vietnam  
*Daniel Francis Richard Cleary, Marina R. S. Ferreira, Nguyen K. Bat, Ana Rita Moura Polónia, Newton Carlos Marcial Gomes and Nicole Joy de Voogd* 18
- Competitive interactions between two allelopathic algal species: *Heterosigma akashiwo* and *Phaeodactylum tricornutum*  
*Rui Wang, Qiaona Xue, Jiangtao Wang and Liju Tan* 32
- First record of *Caulerpa lentillifera* J. Agardh (Bryopsidales, Chlorophyta) from China  
*Dahai Gao, Zhongmin Sun, Chaohua Huang, Jianting Yao, Yongqiang Wang, Wei Tan and Fuxiao Chen* 44
- A new species of the ghost shrimp genus *Neocallichirus* Sakai, 1988 (Decapoda: Axiidea: Callianassidae) from the southwestern Atlantic  
*Patricio Hernández, Amanda M. Windsor, Caio Augusto Paula and William Santana* 50
- A new record of *Pristigenys meyeri* (Priacanthidae) from Maluku province, eastern Indonesia with a description of the otoliths and a first estimate of age  
*Daniel J. Bucher, Jacobus W. Mosse, B. G. Hutubessy, Matthew Tonge and Renaud Joannes-Boyau* 61
- A study of the type material of *Lithophyllum hibernicum* (Lithophyllaceae, Corallinales, Rhodophyta) with comments on *L. bathyporum* and *L. incrustans*  
*Athanasios Athanasiadis* 68
