

Do <i>Sphecodes</i> cuckoo bees use chemical insignificance to invade the nests of their social <i>Lasioglossum</i> bee hosts? C. POLIDORI, M. GEYER, T. SCHMITT .....	147
Dietary requirements of individual nectar foragers, and colony-level pollen and nectar consumption: a review to support pesticide exposure assessment for honey bees S. RODNEY, J. PURDY .....	163
Probabilistic assessment of nectar requirements for nectar-foraging honey bees S. RODNEY, V. J. KRAMER .....	180
Pollinator effectiveness of a specialist bee exploiting a generalist plant—tracking pollen transfer by <i>Heriades truncorum</i> with quantum dots S. KONZMANN, M. KLUTH, D. KARADANA, K. LUNAU .....	201
Retained metabolic activity in honey bee collected pollen has implications for pollen digestion and effects on honey bee health M. MCKINSTRY, S. R. PRADO-IRWIN, T. R. ADAMES, J. W. SNOW .....	212
Sublethal effects of commercial plant protection product containing spores <i>Bacillus amyloliquefaciens</i> QST 713 (formerly <i>subtilis</i> ) on winter adult honeybees R. SABO, A. KOPČÁKOVÁ, L. HAMAROVÁ, I. CINGELOVÁ MARUŠČÁKOVÁ, D. MUDROŇOVÁ, L. SABOVÁ, P. JAVORSKÝ, J. LEGÁTH.....	226
Radiofrequency identification (RFID) reveals long-distance flight and homing abilities of the stingless bee <i>Melipona fasciculata</i> P. NUNES-SILVA, L. COSTA, A. J. CAMPBELL, H. ARRUDA, F. A. L. CONTRERA, J. S. G. TEIXEIRA, R. L. C. GOMES, G. PESSIN, D. S. PEREIRA, P. DE SOUZA, V. L. IMPERATRIZ-FONSECA .....	240
Trialling techniques for rearing long-tongued bumblebees under laboratory conditions J. D. CARNELL, S. PAGE, D. GOULSON, W. O. H. HUGHES.....	254
Grooming behavior and gene expression of the Indiana “mite-biter” honey bee stock N. MORFIN, K. GIVEN, M. EVANS, E. GUZMAN-NOVOA, G. J. HUNT .....	267
Assessing virulence of <i>Varroa destructor</i> mites from different honey bee management regimes T. L. DYNES, J. A. BERRY, K. S. DELAPLANE, J. C. DE ROODE, B. J. BROSI.....	276
