

Review

- Methods for Nutrient Diagnosis of Fruit Trees Early in the Growing Season by Using Simultaneous Multi-element AnalysisK. Matsuoka 197

Original Articles

- Prediction of Acid Concentration in Wine and Table Grape Berries from Air TemperatureT. Sugiura, A. Sato, M. Shiraishi, H. Amamiya, H. Ohno, N. Takayama, N. Miyata, T. Sakaue and S. Konno 208
- Genetic and Gene Expression Analysis of Berry Sugar Composition in a Sucrose-accumulating GrapevineM. Shiraishi and M. Hamada 216
- Accumulation of Polymethoxyflavones and O-methyltransferase Gene Expression in Various Citrus CultivarsF. T. Zohra, S. Takematsu, Y. Itami and N. Kotoda 225
- Characterization of Carotenoid Accumulation and Carotenogenic Gene Expression During Fruit Ripening in Red Colored Pulp of 'Siam Red Ruby' Pumelo (*Citrus grandis*) Cultivated in ThailandN. Tatmala, G. Ma, L. Zhang, M. Kato and S. Kaewsuksaeng 237
- A Preliminary Open-field Study Investigating Commercial Smart Farming of a Potential Alternative Crop, *Aster koraiensis*H. J. Won, J. H. Lee, H. R. Ahn, S. H. Jung and J. H. Jung 244
- Monthly and Yearly Variations in Oxygen Radical-scavenging Activity, Ascorbic Acid Content, and Degrees Brix of Komatsuna (*Brassica rapa* var. *perviridis*) in the Kanto Region, JapanA. Takei, Y. Goh, G. Hattori, M. Arii, M. Niwa and K. Toyota 251
- Effect of Parthenocarpic Genes *pat-2* and *pat-k* on Vegetative and Fruit Traits in Tomato (*Solanum lycopersicum* 'Micro-Tom')R. Takisawa, E. Maai, R. Nakano and T. Nakazaki 261
- Gene Expression Analysis in Response to Vernalization in Chinese Cabbage (*Brassica rapa* L.)A. Akter, J. Miyazaki, D. J. Shea, N. Nishida, S. Takada, N. Miyaji, H. Mehraj, M. Shimizu, M. A. Doullah, T. Takasaki-Yasuda, K. Okazaki and R. Fujimoto 268
- Effects of Harvest Shoot Stage on Partitioning of Photosynthates Originating from Bent Shoots in the Modified Arching Technique of Cut Rose ProductionC. Isobe, S. Kajihara, Y. Tanaka, K. Yasuba, Y. Yoshida, K. Inamoto, G. Ishioka, M. Doi and T. Goto 278
- Analyses of Pigment Compositions and Anthocyanin Biosynthesis Gene Expression in Hirado Azalea CultivarsS. Meanchaipiboon, N. Kobayashi and A. Nakatsuka 284
- Effects of Intermittent Low Temperature Storage Duration and Cycle on the Growth and Flowering of *Eustoma* (*Eustoma grandiflorum* L.) Seedlings Raised in the SummerT. T. Phan, S. Sasaki, K. Fukushima, Y. Tanaka, K. Yasuba, Y. Yoshida and T. Goto 292
- Failure of 2-Pyridinecarboxylic Acid, an Inhibitor of 1-Aminocyclopropane-1-carboxylate Oxidase, as a Universal Flower Care Agent to Extend the Vase Life of Cut Carnation FlowersS. Satoh, K. Makino, K. Shimada and Y. Nomura 300
- Decreased RNase Activity Under High Temperature Is Related to Promotion of Self-pollen Tube Growth in the Pistil of the Japanese Flowering Cherry, *Prunus* × *yedoensis* 'Somei-yoshino'M. Tsuruta, R. Iwaki, C. Lian and Y. Mukai 306
- Allelic Nature of Two Carnation Variants 1-Aminocyclopropane-1-carboxylate (ACC) Synthase Genes, *DcACS1a* and *DcACS1b*S. Satoh, Y. Nomura, Y. Kosugi, H. Tanaka, S. Mizukami and K. Watanabe 311
- Higher Attention Capacity After Improving Indoor Air Quality by Indoor Plant Placement in Elementary School ClassroomsH.-H. Kim, I.-Y. Yeo and J.-Y. Lee 319
- Effect of Silver Particle-longkong Peel Extract Coating on Postharvest Decay and Browning in Longkong FruitI. Lichanporn, C. Techavuthiporn and C. Wongs-Aree 328
