

## CONTENTS

**Reviews and symposia articles/Articles de revue**

Advances in understanding the *Leptosphaeria maculans* - *Brassica* pathosystem and their impact on disease management

*A. P. Van de Wouw and B. J. Howlett*

149

**Bacteria and phytoplasmas/Bactéries et phytoplasmes**

Effect of temperature on phenotype characterization of *Ralstonia solanacearum* from tobacco

*H. Wang, H. Guo, L. Cai, L. Cai, Y. Guo and W. Ding*

164

**Disease control/Moyens de lutte**

Biological control of powdery mildew on *Cornus florida* using endophytic *Bacillus thuringiensis*

*E. Rotich, M. T. Mmbaga and J. Joshua*

182

Multi-location evaluation of fluopyram seed treatment and cultivar on root infection by *Fusarium virguliforme*, foliar symptom development, and yield of soybean

*D. A. Sjarpe, Y. R. Kandel, M. I. Chilvers, L. J. Giesler, D. K. Malvick, M. T. McCarville, A. U. Tenuta, K. A. Wise and D. S. Mueller*

192

**Disease reports and disease diagnostics/Rapports des maladies**

*Cytospora chrysosperma* causing branch dieback and canker of black walnut in China

*B. Sijin, S. Fenghui, Z. Yannan, S. Yanjiang, H. Hongwei and B. Jianyu*

203

First report of Asian pistachio rust (*Pileolaria pistaciae*) in Pakistan

*A. Ishaq, M. C. Aime, E. K. Ayala, S. Ullah, N. S. Afshan, M. Fahad, M. Fiaz, A. R. Niazi and A. N. Khalid*

210

*Diaporthe eres* causes stem cankers and death of young apple rootstocks in Canada

*S. Ali, W. Renderos, E. Bevis, J. Hebb and P. A. Abbasi*

218

*Botrytis cinerea* causing grey mould on *Epimedium brevicornum* Maxim in China

*J. You, J. Guo, Q. Yuan, X. Guo, L. Gao, Y. Duan, L. Ai and L. Qin*

228

Characterization of *Alternaria* species associated with black spot of strawberry in Beijing municipality of China

*Y. Fu, X. Zhang, S. Liu, K. Hu and X. Wu*

235

**Epidemiology/Épidémiologie**

Physiological specialization of *Puccinia triticina*, the causal agent of wheat leaf rust, in Canada in 2013

*B. D. McCallum, P. Seto-Goh, E. Reimer, A. Foster and A. Xue*

243

**Forest diseases/ Pathologie forestière**

Development and application of marker-assisted selection (MAS) tools for breeding of western white pine (*Pinus monticola* Douglas ex D. Don) resistance to blister rust (*Cronartium ribicola* J.C. Fisch.) in British Columbia

*J. Liu, H. Williams, A. Zamany, X. Li, S. Gellner and R. A. Sniezko*

250

**Fungi Canadenses**

*Claviceps zizaniae*

<i>M. Liu, É. Lévillé-Bourret, P. Shoukouhi, A. Sproule and D. P. Overy</i>	260
<b>Host–pathogen interactions/Interactions hôte-pathogène</b>	
Response to <i>Fusarium graminearum</i> infection in the rachis of a resistant and a susceptible wheat genotype <i>M. Hadinezhad and S. S. Miller</i>	265
<b>Population biology/Biologie des populations</b>	
Pathogenicity and phylogenetic analysis of <i>Fusarium oxysporum</i> f. sp. <i>capsici</i> isolates from pepper in Turkey <i>H. H. Altinok, G. Yüksel and M. A. Altinok</i>	279
<b>Virology/Virologie</b>	
Optimization of a direct real-time quantitative reverse transcription polymerase reaction (DRT-qPCR) assay for the detection of grapevine rupestris stem-pitting associated viruses (GRSPaV) in grapevine <i>N. Greig, J. Luong, J. Hooker, L. W. Stobbs and B. Meng</i>	292
<b>Soilborne pathogens/Agents pathogènes telluriques</b>	
Interaction of <i>Rhizoctonia solani</i> and <i>Leuconostoc</i> spp. causing sugar beet root rot and tissue pH changes in Idaho <i>C. A. Strausbaugh</i>	304
