

# JOURNAL OF THE AMERICAN SOCIETY FOR HORTICULTURAL SCIENCE

VOL. 145, NO. 2

CONTENTS

MARCH 2020

- 75 Blue Radiation Interacts with Green Radiation to Influence Growth and Predominantly Controls Quality Attributes of Lettuce  
Qingwu Meng, Jennifer Boldt, and Erik S. Runkle
- 88 Identification, Genome Sizes, and Ploidy of *Deutzia*  
William G. Hembree, Thomas G. Ranney, Nathan P. Lynch, and Brian E. Jackson
- 95 Lipid Composition of Three Bermudagrasses in Response to Chilling Stress  
Charles Fontanier, Justin Quetone Moss, Lakshmy Gopinath, Carla Goad, Kemin Su, and Yanqi Wu
- 104 Two SNP Markers Identified Using Genotyping-by-Sequencing Are Associated with Remontancy in a Segregating F1 Population of *Syringa meyeri* 'Palibin' × *S. pubescens* 'Penda' Bloomerang®  
Hsuan Chen, Jason D. Lattier, Kelly Vining, and Ryan N. Contreras
- 110 Genetic Mapping of Chartreuse Bulb Color in Onion  
Michael J. Havey
- 120 A Survey of the Floral Volatile Profiles of Daylily Species and Hybrids  
Shea A. Keene, Timothy S. Johnson, Cindy L. Sigler, Terah N. Kalk, Paul Genho, and Thomas A. Colquhoun
- 131 Cloning and Characterization of a Tryptophan–Aspartic Acid Repeat Gene Associated with the Regulation of Anthocyanin Biosynthesis in Oriental Hybrid Lily  
Xiaoying Dou, Jinrong Bai, Huan Wang, Ying Kong, Lixin Lang, Fang Bao, and Hongzhong Shang
