

ALLELOPATHY JOURNAL

Volume 51

Number 2

November 2020

CORONA PANDEMIC 2020

Since March 2020, Corona Pandemic has almost stopped research in most Countries. Thus, we have received less Mss. during this period, thereby, we have to reduce the Number of Mss. published in each Issue of Allelopathy Journal.

CALL FOR PAPERS : To overcome the adverse effects of Corona, your Research Group and your contacts/ Friend Researchers are requested to submit their Research Papers to Allelopathy Journal

REVIEW PAPER

Nasiruddin, Yu Zhangxin, Ting Zhao, Chen Guangying and Minghui Ji 125
(China). Allelopathic and Medicinal plant. 26. *Millettia speciosa*

RESEARCH PAPERS

H.B. Wang, Q.X. Zhang, X.T. Chen, Y.H. Wang, L.W. Lin, J.H. Ye, Q. Zhang, X.L. Jia and H.B. He (China) 147
Analysis of microbial diversity of tea tree (*Camellia sinensis* (L.) O. Ktze.) sick rhizospheric soil using soil metaproteomic technology

H. Gao, M. K. Rahman, P.L. Qiao, F.Z. Wu and X.G. Zhou (China) 157
Effects of long-term continuous monocropping on community structure and abundance of *Pseudomonas* spp. in cucumber rhizosphere

Min Li, Lu Ma, Yuan Song, Xingfu Yan, Qian Lei and Xiu Zhang (China) 165
Allelopathic effects of phenolic acids on germination of watermelon (*Citrullus lanatus* Thunb): Dose-effect relationship and quantitative structure-activity relationship

A.M. Al-Ghamdi and M. El-Zohri (Saudi Arabia) 177
Herbicidal potential of *Aerva javanica* to control wild oat in wheat crop

M.Z. Norhafizah, W.S. Wan Nur Suzani Sazleen and T.S. Chuah (Malaysia) 195
Herbicidal activity of allelochemical 2,4-di-tert-butylphenol on weeds (*Asystasia gangetica*, *Eleusine indica*, *Leptochloa chinensis* and *Oldenlandia verticillata*)

V. V. Roshchina and G. A. Soltani (Russia) 209
Effects of Ozone (O₃) on leaf secretory cell characteristics related to allelopathy of woody plants: Modelling allelopathic Interaction

Ke-Bo Liao, Mei Yang, Han-Dong Gao and Fei Cheng (China) 221
Allelopathic effects of phenolic acids on the growth and photosynthetic characteristics of *Eucalyptus grandis* × *E. urophylla* seedlings
