

# Medicinal Plants

Volume 12 | Number 4 | December 2020

## CONTENTS

### PROJECT REPORT

1. **Promoting school herbal gardens: An innovative approach for spreading awareness among students** 483-486  
Vineeta Pandey, Jeetendra Kumar Vaishya, Naresh Kumar Kumawat, R. Murugeswaran and J.L.N. Sastry

### REVIEW ARTICLES

2. **Moringa: A natural boon for health to mankind and livestock** 487-496  
Sunil Kumar and Govind Pratap Rao
3. **Potential antimalarial activity of polyherbal formulations: A review** 497-512  
Elizabeth Bosede Aladejana and Adebawale Emmanuel Aladejana
4. **Ethnobotanical uses, botany, biological and chemical properties of *Duranta erecta* Linn.** 513-522  
Collen Musara and Elizabeth Bosede Aladejana
5. **Antidiabetic potential of selected Asteraceae plant species used in South Africa** 523-532  
Adebawale Emmanuel Aladejana, Graeme Bradley and Anthony Jide Afolayan
6. **A review of beneficial phytochemicals and postharvest studies on some indigenous leafy vegetables from the Mpumalanga Province of South Africa** 533-544  
Wilfred Otang-Mbeng and Madonna Ngwatshipane Mashabela
7. **Natural remedies for the treatment of arthritis: A review** 545-554  
Minakshi Pandey and Meenakshi Bajpai

### RESEARCH ARTICLES

8. **Herb drug interaction of *Tinospora cordifolia* (Willd.) Miers extract and Glimepiride: *In vivo* and *in silico* studies** 555-567  
Asha B. Thomas, Aaftab S. Shaikh, Amol Raje, Kiran B. Lokhande, K. Venkateswara Swamy, Dheeraj H. Nagore and Rohit Doke
9. **Chemical composition and *in vitro* potential activity on glucose metabolism and cytotoxicity of leaves of *Erythroxylum monogynum* Roxb.** 568-579  
Bindu G., Venkata Ramana Devi Ch, Ravi Kumar B.S. and Ravi Kiran S.
10. **Identification of the volatile bioactive compounds by GC-MS analysis from the leaf extracts of *Garcinia cambogia* and *Garcinia indica*** 580-590  
Varsha Jayakar, Vinayak Lokapur and Manjula Shantaram

11. **Evaluation of *in vitro* and *in vivo* anti-inflammatory activity of flavonoid extract of *Thespesia populnea* and *Tabernaemontana divaricata* leaves in Swiss albino mice** 591-597  
Santhi Ramalingam and Annapurani
12. **Quantitative estimation of total phenols, total flavonoids, and antioxidant activity of methanolic extracts of *Ephedra gerardiana* Wall. ex Stapf across different habitats of cold desert biosphere reserve, trans Himalaya, India** 598-608  
Deepti Negi and Sher Singh Samant
13. **Chloroplast DNA marker as a tool to study the molecular phylogeny of Indian *Barleria* L. (Acanthaceae)** 609-614  
Sonal Malik, Shruti Kasana and Suman Lakhanpaul
14. **Characterization of fatty acid composition of seed oil of *Ocimum* species/chemotypes** 615-622  
Archana P. Raina and R.C. Misra
15. **Medicinal plants used for eye disorders and chest pains in the Limpopo province, South Africa** 623-632  
Sebua Silas Semenya and Alfred Maroyi
16. **Nutritional and phytochemical composition of *Moringa oleifera* seeds: A multipurpose potential species in India** 633-639  
Archana P. Raina and S.K. Kaushik
17. **Quantification of two biologically active anthraquinones emodin and chrysophanol in *Cassia tora* seed extracts** 640-647  
Jinal Patel, R. Nagaraja Reddy, Rakesh Ganvit, Khushboo Pachhigar, Sandip Patel, P. Manivel, Sonu Sharma, Raghuraj Singh, V. Thondaiman and Satyanshu Kumar
18. **Influence of extraction solvents on antioxidant activity of *Withania somnifera*** 648-655  
Neha Mishra, Jimmy Chaurasia and Rashmi Srivastava
19. **Ethno-gynaecological knowledge on medicinal plants among the rural communities of Tiruppur district, Tamil Nadu, India** 656-665  
P. Radha, C. Udhayavani, R. Nagaraj and K. Sivaranjani
20. **Ethnobotanical study of medicinal plants used in Shikari Devi Wildlife Sanctuary of Himachal Pradesh, India** 666-673  
Radha, Salena Janjua, Supriya Srivastava and Vinay Negi
