

CONTENTS

Volume 26 Number 1 January–February 2020

Editorial

- 1 The editor's field – disruptive activities
Vincent M. Russo

Articles

- 3 Preharvest application of naphthalene acetic acid and kelpak® improve postharvest quality and phytonutrient contents of sweet pepper
Noxolo P. Mbandlwa, Helene Fotouo-M, Martin M. Maboko, and Dharini Sivakumar
- 15 How do climate change adaptation strategies result in unintended maladaptive outcomes? Perspectives of tomato farmers
Lawrence Guodaar, Felix Asante, Gabriel Eshun, Kabila Abass, Kwadwo Afriyie, Devine Odame Appiah, Razak Gyasi, Gerald Atampugre, Prince Addai, and Felix Kpenekuu
- 32 Production environment effect on agronomic performance of okra breeding lines and their F₂ populations
C. Olusanya Alake
- 55 Mineral composition in populations of Iranian wild celery
Raheleh Javani and Hossein Ali Asadi-Gharneh
- 62 Sensitivity of tobacco caterpillar, *Spodoptera litura*, to extract from a medicinal plant, *Withania somnifera*
Sandeep Kumar Gaur and Krishna Kumar
- 79 Pharmacological and biomedical uses of extracts of pumpkin and its relatives and applications in the food industry: a review
Poorva Sharma, Gursharan Kaur, Bababode Adesegun Kehinde, Navnidhi Chhikara, Anil Panghal, and Harjeet Kaur
- 96 Analysis of marketing information sources among smallholder vegetable farmers
Sagun Sharma Pandit, John K.M. Kuwornu, Avishek Datta, Muhammad Yaseen, and Anil Kumar Anal

International Journal of Vegetable Science

Volume 26 Number 2 March–April 2020

Editorial

- 107 The editor's field – if the articles received in the journal...
Vincent M. Russo

Articles

- 109 Apical pruning of cucumber has little effect on plant development and seed yield and quality
Pâmela Gomes Nakada-Freitas, Antonio Ismael Inácio Cardoso, Ana Emília Barbosa Tavares, Marina Toledo Rodrigues Claudio, Felipe Oliveira Magro, Natália de Brito Lima Lanna, Priscilla Nátaly de Lima Silva, Estefânia Martins Bardivieso, and Vitor Marcelo Magalhães de Souza

- 116 Stomatal conductance, leaf chlorophyll content, growth, and yield of sweet pepper in response to plant growth regulators
Noxolo P. Mbandlwa, Helene Fotouo-M, Martin M. Maboko, and Dharini Sivakumar
- 127 Genetic variability and diversity in okra landraces using agromorphological traits and seed elemental minerals
Christopher Olusanya Alake
- 150 Genetic control of enation leaf curl virus disease tolerance in cultivated species of okra
Ayam Pushparani Devi, Swadesh Banerjee, Tridip Bhattacharjee, Praveen Kumar Maurya, Asit Kumar Mandal, Subrata Dutta, and Arup Chattopadhyay
- 163 Heterotic expression of okra hybrids for tolerance to enation leaf curl virus
Ayam Pushparani Devi, Tridip Bhattacharjee, Swadesh Banerjee, Praveen Kumar Maurya, Soumitra Chatterjee, and Arup Chattopadhyay
- 190 Comparison of nutritional, antioxidant vitamins and capsaicin contents in *Capsicum annuum* and *C. frutescens*
Tomi Lois Olatunji and Anthony Jide Afolayan

Volume 26 Number 3 May–June 2020

Editorial

- 209 The Editor's field – international, as in between nations
Vincent M. Russo

Articles

- 211 Breeding cherry tomato grown under open field conditions for simultaneous improvement in yield, nutritional quality, and leaf curl virus disease tolerance
Debmala Mukherjee, Praveen Kumar Maurya, Swadesh Banerjee, Tridip Bhattacharjee, Subhrajyoti Chatterjee, Soumitra Chatterjee, Asit Kumar Mandal, Anirban Maji, and Arup Chattopadhyay
- 249 Techno-economic analysis of solar greenhouses
Hüseyin Benli
- 262 Morphological and biochemical variability of *Froriepia*
Abbas Jorkesh, Yousef Hamidoghli, Jamalali Olfati, Habibollah Samizadeh, Davood Bakhshi, and Jesús Palá-Paúl
- 275 Selection criteria for seed yield improvement in multi-species of *Amaranthus* genotypes
C. Olusanya Alake and G. Oluwayemisi Otusanya
- 292 Development, yield and quality of Cantaloupe and Honeydew melon in soilless culture in a non-temperature controlled high tunnel
Boitshepo L. Pulela, Martin M. Maboko, Puffy Soundy, and Stephen O. Amoo
- 302 Characterization of *Leucas aspera* and evaluation of antioxidant activities before and after being subjected to digestion enzymes
Rakhi Chakraborty, Debjani Pal, and Swarnendu Roy

Volume 26 Number 4 July–August 2020

Editorial

- 321 The editor's field – the most demanding activity of being an editor is...
Vincent M. Russo

Articles

- 323 Productivity and market participation of Fluted pumpkin farmers under tropical conditions
Abimbola O. Adepoju, Oyewale Oyegoke, and Afolasade Amusan
- 333 Isolation, screening and application of a potent PGPR for enhancing growth of Chickpea as affected by nitrogen level
Deepika Mazumdar, Shyama Prasad Saha, and Shilpi Ghosh
- 351 Gender differential in profitability of cultivating Scotch bonnet pepper
A. O. Adegunsoye and T. E. Mafimisebi
- 358 Production and quality of lettuce seed as a function of seedling age
Marina De Toledo Rodrigues Claudio, Ariane Da Cunha Salata, Felipe Oliveira Magro, Antonio Ismael Inácio Cardoso, and Pâmela Gomes Nakada-Freitas
- 364 Preharvest application of sodium nitroprusside improves tomato fruit quality and alleviates chilling injury during cold storage
Shadiéh Ahmadi Soleimanie, Yavar Vafae, and Mahmoud Koushesh Saba
- 379 Seed production and quality in grafted cucumber
Marina De Toledo Rodrigues Claudio, Pâmela Gomes Nakada-Freitas, Ana Emília Barbosa Tavares, Felipe Oliveira Magro, and Antonio Ismael Inácio Cardoso
- 385 Wild and cultivated vegetables of the Indian Himalaya and their use as vegetables and in traditional medicine
Antaryami Singh, Supriya Rana, and Rita Singh
- 408 Genetic control of economic traits and evidence of economic heterosis in crosses involving monoecious cucumber genotypes
Shubhashree Priyadarshinee Das, Amit Ranjan Mandal, Praveen Kumar Maurya, Tridip Bhattacharjee, Swadesh Banerjee, Asit Kumar Mandal, and Arup Chattopadhyay

Volume 26 Number 5 September–October 2020

Editorial

- 431 The editor's field – location, location, location...
Vincent M. Russo

Articles

- 433 Training needs of okra growers: a case study
Bassim H. Kshash
- 441 Seedling emergence and growth of 'China Rose' radish microgreens in response to radicle breakage following pre-sowing seed germination
Wallace G. Pill, Carrie J. Murphy, Michael Olszewski, and Thomas A. Evans

Review

- 450 An overview of *Protulaca quadrifida*
Swati R. Dhande and Vijay R. Patil

Articles

- 457 Breeding chili pepper for simultaneous improvement in dry fruit yield, fruit quality and leaf curl virus disease tolerance
Majjiga Sreenivas, Tridip Bhattacharjee, Amit Baran Sharangi, Praveen Kumar Maurya, Swadesh Banerjee, Soumitra Chatterjee, Anirban Maji, Asit Kumar Mandal, Ivi Chakraborty, and Arup Chattopadhyay
- 487 Embedded system for regulating abiotic parameters for *Capsicum* cultivation in a polyhouse with comparison to open-field cultivation
Dilip Jat, Yogesh Anand Rajwade, N. S. Chandel, Kumkum Dubey, and K. V. R. Rao
- 498 Selection of elite F3 lines in cucumber using factor analysis method
F. S. Moslemi, M. Dianati, J. A. Olfati, and Y. Hamidoghli
- 506 Nutritional composition of some jute genotypes as vegetables
Md. Zabulul Tareq, Kazi Khayrul Bashar, Md. Ruhul Amin, Muhammad Delwar Hossain Sarker, Md. Moniruzzaman, Mohammad Saiful Alam Sarker, and Md. Shahidul Islam
- 516 Agro-morphological and nutritional variability among elite Nsukka yellow spice pepper breeding lines
Christian Okechukwu Anyaoha, Olufemi. T. Ademoyegun, and Solomon O. Afuape

Volume 26 Number 6 November–December 2020

Editorial

- 533 The Editor's Field – A basic premise of science
Vincent M. Russo

Articles

- 535 Photosynthetic activity and onion growth response to compost and Epsom salt
Zhujun Qiu, Ebenezer O. Esan, Mercy Ijenyo, Lokanadha R. Gunupuru, Samuel K. Asiedu, and Lord Abbey
- 547 Management of bacteria *Pectobacterium carotovorum*, *Xanthomonas campestris* pv. *carotae*, and fungi *Rhizoctonia solani*, *Fusarium solani* and *Alternaria dauci* with silicon dioxide nanoparticles on carrot
Zaki A. Siddiqui, Areesha Hashmi, Manzoor R. Khan, and Aiman Parveen
- 558 Growth, yield and mineral content of basil and cultivated rocket due to plant density and nitrogen level
Rebecca Irene Sindisiwe Mahlangu, Martin Makgose Maboko, and Fhatuwani Nixwell Mudau
- 573 Traits associated with pod yield, seed Fe, and Zn contents in Okra landraces: a path analysis
C. Olusanya Alake
- 591 Isolation, characterization, and identification of phosphate-solubilizing *Burkholderia cepacia* from the sweet corn cv. Golden Bantam rhizosphere soil and effect on growth-promoting activities
Amit Pande, Suresh Kaushik, Prashant Pandey, and Avinash Negi
- 608 Profitability and technical efficiency of leafy vegetable production: a stochastic frontier production function analysis
Adewale M. Ogunmodede and Diran O. Awotide
