

Special Issue: Invited Review

- The Development of a Root-zone Environmental Control System (N.RECS) and Its Application to Flower Production
Y. Muramatsu and S. Kubota 239

Special Issue: Original Articles

- Examination of Yield Components and the Relationship Between Dry Matter Production and Fruit Yield in Greenhouse Sweet Pepper (*Capsicum annuum*)
T. Watabe, M. Homma, D.-H. Ahn and T. Higashide 247
- Verification of the Effects of End-of-Day-cooling on Floral Differentiation and Cut-flower Characteristics in Carnation (*Dianthus caryophyllus* L.)
M. Higashiura, M. Douzono, Y. Uno and M. Yamanaka 255

Review

- A Review of Japanese Greenhouse Cucumber Research from the Perspective of Yield Components
K. Maeda and D.-H. Ahn 263

Original Articles

- Instrumental Evaluation of Flesh Texture in Apple Cultivars
K. Kanamaru, K. Kohyama, K. Konisho and K. Izumi 270
- In Vivo* Micrografting to Eliminate Passiflora Latent Virus from Infected Passion Fruit Plants
T. Ogata and S. Yamanaka 280
- Alleviation of Fruit Decay During the Export and Domestic Storage of Satsuma Mandarin Fruit Through Temperature Treatment and Ultraviolet-C Irradiation via Phytoalexin Production
J. Yamaga, A. Ikegaya, S. Nakamura, S. Yamazaki and T. Nakajima 286
- Observation and Characterization of Oil Body Biogenesis and Distribution in *Brassica napus* L. Ovules After Flowering
S. Li, T. Gan, J. Li and Y. He 296
- The Effect of Greenhouse Cultivation Under a Heat Insulation Film Covering on Tomato Growth, Yield, and Fruit Quality in a Subtropical Area
M. Nakayama, S. Fujita, Y. Watanabe, T. Ando, M. Isozaki and Y. Iwasaki 304
- Southeast Asian Isolate of the Tomato Leaf Curl New Delhi Virus Shows Higher Pathogenicity Against Tomato and Cucurbit Crops Compared to that of the Mediterranean Isolate
H. Yamamoto, Y. Wakita, T. Kitaoka, K. Fujishiro, E. Kesumawati and S. Koeda 314
- Temporal Changes in Quercetin Accumulation and Composition in Onion (*Allium cepa* L.) Bulbs and Leaf Blades
S. Oku, K. Aoki, M. Honjo, T. Muro and H. Tsukazaki 326
- Successive Induction of Invertase Isoforms During Flower Development in *Eustoma*
T. Harada, Y. Eguchi, Y. Inada, K. Onishi and K. Hishikawa 334
- Effect of Post-harvest Management on Scent Emission of Carnation Cut Flowers
K. Kishimoto 341
