

**Research Report**

C. Wang, J. Yu, J. Wang, J. Zhang, L. Yang, K. Li and Y. Zhang  
Transcriptome based genetic resources from Rabbiteye and Southern  
Highbush blueberries

363

**Research Report**

S.S. Arango-Varela, D. Torres-Camargo, C. Reyes-Dieck,  
M.B. Zapata-Londoño and M.E. Maldonado-Celis  
Aqueous extract of Andean Berry induces apoptosis in human colon  
cancer cells without mitochondrial damage

377

**Research Report**

İ. Mazlum and N. Mustafa Nizamlioğlu  
The effects of different drying methods on some physical and chemical properties  
of 'Eksikara' grape cultivar grown in Karaman region

395

**Research Report**

M. Li, S.-q. Shen, Y.-b. Xing, W.-w. Jiao, Y.-r. Zhan, Y.-d. Sun,  
D.-l. Guo and Y.-H. Yu  
*Vitis vinifera* VvPUB17 functions as a E3 ubiquitin ligase and enhances powdery  
mildew resistance via the salicylic acid signaling pathway

419

**Research Report**

E.-A. Salinas-Peña, M. Mendoza-Rodríguez, C. Velázquez-González,  
C.E. Medina-Solis, A.P. Pontigo-Loyola, M. de Lourdes Márquez-Corona,  
A.-P. Rodríguez-Hernández and L.-A. Ximénez-Fyvie  
Antibacterial properties *in-vitro* of Mexican serviceberry extracts  
against dental biofilm species

431

**Research Report**

P. Wang, J. Yang, Z.-Y. Li, J.-J. Zhu, Q.-H. Gao, D.-A. Ni and K. Duan  
Genome-wide identification and expression analysis revealed cinnamyl alcohol  
dehydrogenase genes correlated with fruit-firmness in strawberry

447

**Research Report**

S. Bernardo, L.-T. Dinis, N. Machado, A. Barros, M. Pitarch-Bielsa,  
A. Gómez-Cadenas and J. Moutinho-Pereira  
Kaolin impacts on hormonal balance, polyphenolic composition and oenological  
parameters in red grapevine berries during ripening

465

**Research Report**

P.O. Bhutia, P. Kewlani, A. Pandey, S. Rawat and I.D. Bhatt  
Physico-chemical properties and nutritional composition of fruits of the wild  
Himalayan strawberry (*Fragaria nubicola* Lindl.) in different ripening stages

481

**Research Report**

G. Lācis, K. Kārklīņa, I. Kota-Dombrovskā and S. Strautiņa  
Evaluation of blackcurrant (*Ribes nigrum*) germplasm structure by  
microsatellite-based fingerprinting for the diversification of the breeding material

497

**Research Report**

C.T.T. Nguyen, J.H. Lee and P.-T. Tran  
Accumulation of sugars and associated gene expression in highbush blueberries differ by  
cultivar, ripening stage, and storage temperature

511
