

Plant, Soil and Environment

Volume 67, No. 7

2021

CONTENTS

ORIGINAL PAPERS

- BALLA KOVÁCS A., KREMPER R., KÁTAI J., VÁGÓ I., BUZETZKY D., KOVÁCS E.M.,
KÓNYA J., NAGY N.M.: Characterisation of soil phosphorus forms in the soil-plant system
using radioisotopic tracer method 367
- TYŠER L., KOLÁŘOVÁ M., TULAČKA O., HAMOUZ P.: Weed vegetation in conventional
and organic farming in West Bohemia (Czech Republic) 376
- MA Q., JIANG C.M., LI S.L., YU W.T.: Maize yield and nitrogen-use characteristics were promoted
as consistently improved soil fertility: 6-year straw incorporation in Northeast China 383
- NOVÁK V., ŠAŘEC P., KRÍŽOVÁ K., NOVÁK P., LÁTAL O.: Soil physical properties and crop status
under cattle manure and Z'Fix in Haplic Chernozem 390
- ZHAO X., ZHANG B.L., LIU S.C., YANG X.S.: Evaluation of efficiency of controlled-release N fertiliser
on tartary buckwheat production 399
- ORSÁK M., KOTÍKOVÁ Z., HNILIČKA F., LACHMAN J.: Effect of drought and waterlogging stresses
on saccharides and amino acids content in potato tubers 408
- YEŞİL M., ÖZCAN M.M.: Effects of harvest stage and diurnal variability on yield
and essential oil content in *Mentha × piperita* L. 417
