

Plant, Soil and Environment

Volume 67, No. 10

2021

CONTENTS

ORIGINAL PAPERS

- QURESHI M.T., AHMAD M.F., IQBAL N., WAHEED H., HUSSAIN S., BRESTIČ M., ANJUM A., NOORKA I.R.: Agronomic bio-fortification of iron, zinc and selenium enhance growth, quality and uptake of different sorghum accessions 549
- LIU Y., HAO C.X., WANG G.Y., LI Q., SHAO A.: Exogenously spermidine alleviates damage from drought stress in the photosystem II of tall fescue 558
- ZHOU E.D., GOU M.C., YU B., SUN C., HE J.L., QIN S.J., LYU D.G.: Effects of mowing dominant grasses on root exudation and soil nitrogen cycling in a natural sod culture apple orchard 567
- SATRANSKÝ M., FRAŇKOVÁ A., KUČTOVÁ P., PAZDERŮ K., ČAPOUCHOVÁ I.: Oil content and fatty acid profile of selected poppy (*Papaver somniferum* L.) landraces and modern cultivars 579
- ZHANG F.T., QIAO Y.F., HAN X.Z., ZHANG B.: Variation of soil organic matter depends on light-fraction organic matter under long-term monocropping of different crops 588
- BEVK D., PREŠERN J.: Pollinators communities differ across years and crops 600
- HOVORKA T., SASKA P., STARÁ J., KOCOUREK F.: Attractiveness of oilseed rape cultivars to *Brassicogethes aeneus* and *Ceutorhynchus obstrictus* as a potential control strategy 608
