

# CC GREEN Scanauftrag

**Auftragsnummer:** ZBMED-BN211166011-3

**Auftragsdatum:** 16.01.21 - 06:03

---

**Signatur:** Z 2634

**Title:** LWT - <sup>6</sup> and technology

**ISSN:** 0023-6438

**Erscheinungsjahr:** 2021

**Erscheinungsort:** Amsterdam [u.a.]

**Band Heft:** Part 2

**Bitte Inhaltsverzeichnis scannen!**

# LWT—Food Science and Technology

## CONTENTS

Volume 136, Part 2 January 2021

### Research papers

- Properties of dehydrated cassava puree and wheat flour blends and its relationship with the texture of doughs**  
*A. Cazzaniga, S. Hase, M.M. Brousse and A.R. Linares* 110310
- Bioactive compounds, antioxidant activity, and sensory qualities of red-fleshed apples dried by different methods**  
*M. Kidoń and J. Grabowska* 110302
- Investigation of microbial composition and functional characterization of Zangqu using high throughput sequencing**  
*W. Ma, X. Geng, F. Jia, X. Zhang, Y. Zhang and J. Xue* 110342
- Comparison of functional characteristics of distinct *Saccharomyces boulardii* strains isolated from commercial food supplements**  
*H. Goktas, E. Dertli and O. Sagdic* 110340
- The effect of *Moringa peregrina* seed husk on the *in vitro* starch digestibility, microstructure, and quality of white wheat bread**  
*F. Sardabi, M.H. Azizi, H.A. Gavlighi and A. Rashidinejad* 110332
- Antioxidant properties of the extracts of vine tea (*Ampelopsis grossedentata*) with the different color characteristics and inhibition of rapeseed and sunflower oil oxidation**  
*C. Jia, J. Li, M. Zhang, W. Ma, S. Zhao, R. Liu, J. Rong and X. Li* 110292
- Spray drying of whey protein stabilized nanoemulsions containing different wall materials – maltodextrin or trehalose**  
*A. Teo, Y. Lam, S.J. Lee and K.K.T. Goh* 110344
- Preliminary investigation on the effect of proteins of different leguminous species (*Cicer arietinum*, *Vicia faba* and *Lens culinaris*) on the texture and sensory properties of egg-free mayonnaise**  
*E. Armaforte, L. Hopper and G. Stevenson* 110341
- Development of kafirin-based nanocapsules by electrospraying for encapsulation of fish oil**  
*T. Cetinkaya, A.C. Mendes, C. Jacobsen, Z. Ceylan, I.S. Chronakis, S.R. Bean and P.J. Garcia-Moreno* 110297
- Effects of ultrasound-assisted cooking on quality characteristics of spiced beef during cold storage**  
*J. Zhang, Y. Zhang, Y. Zou and W. Zhang* 110359
- In vitro evaluation of the hypoglycemic properties of lactic acid bacteria and its fermentation adaptability in apple juice**  
*X. Wang, M. Han, M. Zhang, Y. Wang, Y. Ren, T. Yue and Z. Gao* 110363
- Quality characteristics and bacterial community of a Chinese salt-fermented shrimp paste**  
*W. Li, H. Lu, Z. He, Y. Sang and J. Sun* 110358
- Effect of phenolic compounds on the activity of proteolytic enzymes during rennet induced coagulation of milk and ripening of miniature cheese**  
*S. Yildirim-Elikoglu, H. Vural and Y.K. Erdem* 110337
- Functional protection of different structure soluble dietary fibers from *Lentinus edodes* as effective delivery substrate for *Lactobacillus plantarum* LP90**  
*Z. Xue, Z. Chen, X. Gao, M. Zhang, P. Panichayupakaranant and H. Chen* 110339
- Effect of 1–20 years storage on volatiles and aroma of Keemun congou black tea by solvent extraction-solid phase extraction-gas chromatography-mass spectrometry**  
*T. Meng, X. Zhipeng, H. Ai, C. Jiayu, Y. Tianji and L. Zhengquan* 110278
- Acid resistance of *E. coli* O157:H7 and O26:H11 exposure to lactic acid revealed by transcriptomic analysis**  
*L. Yu, S. Zhang, Y. Xu, X. Mi, T. Xing, J. Li, L. Zhang, F. Gao and Y. Jiang* 110352

- Selection of potential molecular markers for cheese ripening and quality prediction by NMR spectroscopy**  
Y. Chen, W. MacNaughtan, P. Jones, Q. Yang, H. Williams and T. Foster 110306
- Pilot scale supercritical CO<sub>2</sub> extraction of carotenoids from sweet paprika (*Capsicum annuum* L.): Influence of particle size and moisture content of plant material**  
D. Kostrzewa, A. Dobrzyńska-Inger and R. Reszczyński 110345
- Effect of hypobaric treatment on off-flavour development and energy metabolism in 'Bruno' kiwifruit**  
C. Huan, H. Li, Z. Jiang, S. Li, S. Shen and X. Zheng 110349
- The antimicrobial effect of grapefruit peel essential oil and its nanoemulsion on fish spoilage bacteria and food-borne pathogens**  
Y. Özogul, F. Özogul and P. Kulawik 110362
- Stability of phenolic compounds, antioxidant activity and colour parameters of a coloured extract obtained from coloured-flesh potatoes**  
S. Ercoli, J. Cartes, P. Cornejo, G. Tereucán, P. Winterhalter, B. Contreras and A. Ruiz 110370
- Thymol as a critical component of *Thymus vulgaris* L. essential oil combats *Pseudomonas aeruginosa* by intercalating DNA and inactivating biofilm**  
T. Liu, J. Kang and L. Liu 110354
- Structure and stability of low molecular weight collagen peptide (prepared from white carp skin) -calcium complex**  
X. Yang, X. Yu, A.-G. Yagoub, L. Chen, H. Wahia, R. Osae and C. Zhou 110335
- A diagrammatic approach of impedimetric phase angle-modulus sensing for identification and quantification of various polar and non-polar/ionic adulterants in milk**  
C. Das, B.N. Chowdhury, S. Chakraborty, S. Sikdar, R. Saha, A. Mukherjee, A. Karmakar and S. Chattopadhyay 110347
- Effect of ultrasound pretreatment on the physicochemical properties and simulated gastrointestinal digestibility of micellar casein concentrates**  
M. Yang, Q. Zeng, Y. Wang, J. Qin, J. Zheng and W. Wa 110319
- The fruits of sumac (*Rhus coriaria* L.) as a functional additive and salt replacement to wheat bread**  
D. Dziki, G. Cacak-Pietrzak, W.H. Hassoon, U. Gawlik-Dziki, A. Sulek, R. Różyło and D. Sugier 110346
- Use of near infrared hyperspectral imaging as a nondestructive method of determining and classifying shelf life of cakes**  
M. Sricharoonratana, A.K. Thompson and S. Teerachaichayut 110369
- Characterizing bacterial strains of spoiled Jinhua ham and evaluating the effect of antimicrobial agents on these isolated bacterial strains**  
G. Zhan, D. Pan, C. Zhou, Y. Wang, J. He, J. Zhang, G. Li and J. Cao 110351
- Identification of dominant spoilage bacteria in sea cucumber protein peptide powders (SCPPs) and methods for controlling the growth of dominant spoilage bacteria by inhibiting hygroscopicity**  
X. Li, R. Yang, H. Ju, K. Wang and S. Lin 110355
- Probiotic and related properties of a novel lactic acid bacteria strain isolated from fermented rose jam**  
A.-N. Xia, X.-S. Meng, X.-J. Tang, Y.-Z. Zhang, S.-M. Lei and Y.-G. Liu 110327
- Novel lecithin-based oleogels and oleogel emulsions delay lipid oxidation and extend probiotic bacteria survival**  
X. Zhuang, N. Gaudino, S. Clark and N.C. Acevedo 110353
- The influence of repeated versus continuous dry-heating on the performance of wheat starch with different amylose content**  
B. Zhang, Q. Zhang, H. Wu, C. Su, X. Ge, H. Shen, L. Han, X. Yu and W. Li 110380
- Influence of fermentation temperature on microbial community composition and physicochemical properties of mabisi, a traditionally fermented milk**  
H.B. Moonga, S.E. Schoustra, A.R. Linnemann, J. van den Heuvel, J. Shindano and E.J. Smid 110350
- The significance of minor components on the antibacterial activity of essential oil via chemometrics**  
D.L. Miladinović, M.V. Dimitrijević, T.M. Mihajilov-Krsteš, M.S. Marković and V.M. Ćirić 110305
- The osmotic action of sugar combined with hydrogen peroxide and bee-derived antibacterial peptide Defensin-1 is crucial for the antibiofilm activity of eucalyptus honey**  
A. Proaño, D. Coello, I. Villacrés-Granda, I. Ballesteros, A. Debut, K. Vizuete, A. Brenciani and J.M. Álvarez-Suarez 110379
- Analysis of natural colourant extracted from the pericarp of passion fruit**  
H. Kawasoe, M. Wakamatsu, S. Hamada, Y. Arata, K. Nagayoshi, R. Uchida, R. Yamashita, T. Kishita, H. Yamanouchi, Y. Minami and K. Kajiya 110412
- Exploration of an ultrasonic pulse echo system for comparison of milks, creams, and their dilutions**  
Y. Yang, W.M.D. Wright, K.A. Hettinga and S.M. van Ruth 110616
- Corrigendum**
- Corrigendum to "The effects of fermentation with lactic acid bacteria on the antioxidant and anti-glycation properties of edible cyanobacteria and microalgae" [LWT-Food Science and Technology 136 (2021) 110029]**  
Y. Kaga, T. Kuda, M. Taniguchi, Y. Yamaguchi, H. Takenaka, H. Takahashi and B. Kimura 110244
