## Volume 11, Number 1,

### CONTENTS

#### Research Report

*G. Gullo, A. Dattola, V. Vonella and R. Zappia*

Effects of photosselective colour nets on the vegetative, productive, and qualitative behaviour of kiwifruit, jintao cultivar

1

#### Research Report

*J. Yang, Z. Ding, J. Wang, S. Tian, K. Duan and Q. Gao*

Bet v 1 potential allergens are involved in anthracnose resistance of strawberry varieties

21

#### Research Report

*M.E. Arena, E. Giordani, G. Bustamante and S. Radice*

Variability in fruit traits and anthocyanin content among and within populations of underutilized Patagonian species *Berberis microphylla* G. Forst.

33

#### Research Report

*M.L. Gomez Mattson, R. Corfield, L. Bajda, O.E. Pérez, C. Schebor and D. Salvatori*

Potential bioactive ingredient from elderberry fruit: Process optimization for a maximum phenolic recovery, physicochemical characterization, and bioaccessibility

51

#### Research Report

*S. Nin, W.A. Petrucci, A. Turchi and E. Giordani*

Adventitious rooting in stem and rhizome cuttings of Tuscan (Italy) *Vaccinium myrtillus* L. under different environmental conditions

69

#### Research Report

*N.E. VandenAkker, S. Vendrame, P. Tsakiroglou and D. Klimis-Zacas*

Red raspberry (*Rubus idaeus*) consumption restores the impaired vasoconstriction and vasorelaxation response in the aorta of the obese Zucker rat, a model of the Metabolic Syndrome

89

#### Research Report

*F. Noriega, C. Mardones, S. Fischer, C. García-Viguera, D.A. Moreno and M. Dolores López*

Seasonal changes in white strawberry: Effect on aroma, phenolic compounds and its biological activity

103

#### Research Report

*M. Asghari, F. Ahmadi and R. Hajitagilou*

Mitigating the adverse effects of deficit fertigation on strawberry yield, quality and phytochemical compounds by salicylic acid and putrescine treatments

119

#### Research Report

*M. Sarraf, A. Beig-babaei and S. Naji-Tabasi*

Optimizing extraction of berberine and antioxidant compounds from barberry by maceration and pulsed electric field-assisted methods

133

#### Research Report

*J. Gamboa-Santos, M.F. Vasco and L. Campañone*

Diffusional analysis and textural properties of coated strawberries during osmotic dehydration treatment
