Research Articles

Evaluation of the Concord Crop Load Response for Current Commercial Production
in New York

T. Bates, R. Jakubowski, and J.A. Taylor **1 - 11**

A Novel Grape Downy Mildew Resistance Locus from *Vitis rupestris*

G. Bhattarai, A. Fennell, J.P. Londo, C. Coleman, and L.G. Kovacs **12 - 20**

Whole Cluster and Dried Stem Additions' Effects on Chemical and Sensory Properties
of Pinot noir Wines over Two Vintages

*L.F. Casassa, N.P. Dermutz, P.F.W. Mawdsley, M. Thompson, A.A. Catania,
T.S. Collins, P.L. Ashmore, F. du Fresne, G. Gasic, and J.C. Dodson Peterson.* **21 - 35**

Sensory Evaluation of Syrah and Cabernet Sauvignon Wines: Effects of Harvest Maturity
and Fermentation Soluble Solids

S.C. Frost, J.M. Sanchez, C. Merrell, R. Larsen, H. Heymann, and J.F. Harbertson. **36 - 45**

Effects of Viticultural Mechanization on Working Time Requirements and Production Costs

L. Strub, A. Kurth, and S.M. Loose **46 - 55**

Stilbenes Can Impair Malolactic Fermentation with Strains of *Oenococcus oeni*
and *Lactobacillus plantarum*

S. Zimdars, R. Caspers-Weiffenbach, P. Wegmann-Herr, and F. Weber **56 - 63**

Appropriate Time to Measure Leaf and Stem Water Potential in North-South Oriented,
Vertically Shoot-Positioned Vineyards

T. Tian and R.P. Schreiner **64 - 72**

A Survey of Viruses Found in Grapevine Cultivars Grown in Missouri

*J. Schoelz, D. Volenberg, M. Adhab, Z. Fang, V. Klassen, C. Spinka,
and M. Al Rwahmih* **73 - 84**

CONTENTS *continued*

Compost Application to Degraded Vineyard Soils: Effect on Soil Chemistry, Fertility, and Vine Performance <i>S.G. Wilson, J.-J. Lambert, and R. Dahlgren</i>	85 - 93
Evaluation of Two Phylloxera Genotypes in Argentina on Six <i>Vitis vinifera</i> Cultivars and Three Rootstocks <i>C. Arancibia, E. Malovini, C.B. Agüero, F. Buscema, R. Alonso, M.A. Walker, and L.E. Martínez</i>	94 - 100
 <i>Research Notes</i>	
Prediction of Effective Steam Sterilization Times for Wine Barrels Using a Mathematical Modeling Approach <i>R. Yao, G. Kwong, K.V. Miller, and D.E. Block</i>	101 - 105
Risk of Spotted-Wing Drosophila Injury and Associated Increases in Acetic Acid in Minnesota Winegrapes <i>D.N. Ebbenga, E.C. Burkness, M.D. Clark, and W.D. Hutchison</i>	106 - 112
