

Agricultural Research

VOLUME 64 NUMBER 2 JUNE 2021

Review article

Resolving broad patterns of prokaryotic community structure
in New Zealand pasture soils

**R. A. Kaminsky, S. A. Wakelin, M. P. Highton, M. S. Samad and
S. E. Morales** 143

Research articles

Changes in the abundance and diversity of earthworms in hill soils
under different long-term fertiliser and sheep stocking regimes

N. S. Schon, A. D. Mackay and R. A. Gray 162

Using multiple insecticidal microbial agents against diamondback
moth larvae - does it increase toxicity?

**J. Narciso, M. Ormskirk, S. Jones, P. Rolston, M. E. Moran-Diez,
M. Hurst, J. Brookes and T. Glare** 178

A Petri dish test for detection of flumetsulam and MCPA resistance in
giant buttercup (*Ranunculus acris* subsp. *acris*)

C. S. Lusk, G. A. Hurrell and D. J. Saville 194

Abutilon theophrasti—a comparison of two climate niche models

G. W. Bourdôt and S. L. Lamoureux 211

Temporal trends in soil physical properties under cropping with
intensive till and no-till management

**J. J. Drewry, S. J. McNeill, S. Carrick, I. H. Lynn,
A. Eger, J. Payne, G. Rogers and S. M. Thomas** 223

Soil nitrogen supply from effluent-amended pasture soils for
forage maize production

**M. Norris, P. R. Johnstone, D. F. Wallace, N. P. Arnold and
M. Parker** 245

Short communication

Methane emission factors for beef cows in Argentina: effect of diet
quality

**J. I. Gere, R. A. Bualó, A. L. Perini, R. D. Arias, F. M. Ortega,
A. E. Wulff and G. Berra** 260
