

# European Journal of Agronomy

Vol. 125

CONTENTS

APRIL 2021

(Abstracts/contents list published in: AGRICOLA, CABS (Current Awareness in Biological Sciences), Biobase, CAB International, INIST Pascal Database, Chemical Abstracts, Current Contents (Agricultural, Biological and Environmental Sciences), Ecological Abstracts, Geobase. Also covered in the abstract and citation database SCOPUS®. Full text available on ScienceDirect®)

## Regular Articles

- Effect of cultivation practices on diversity in susceptibility reactions of winter wheat genotypes to Fusarium head blight  
V. Župunski, R. Jevtić, M. Lalošević B. Jocković, L. Župunski and N. Skenderović 126250
- The net photosynthetic rate of the cotton boll-leaf system determines boll weight under various plant densities  
M. Chen, Y. Zhang, F. Liang, J. Tang, P. Ma, J. Tian, C. Jiang and W. Zhang 126251
- Decision rules for managing N fertilization based on model simulations and viability assessment  
C. Ravier, R. Sabatier, D. Beillouin, J.-M. Meynard, R. Trépos and M.-H. Jeuffroy 126247
- Plant and soil tests to optimize phosphorus fertilization management of grasslands  
C. Jouany, C. Morel, N. Ziadi, G. Bélanger, S. Sinaj, C. Stroia, P. Cruz, J.-P. Theau and M. Duru 126249
- Phosphate fertilization and liming in a trial conducted over 21 years: A survey for greater forage production and Pampa pasture conservation  
A. Somavilla, A.C. Ramos Marques, L. Caner, L.B. de Oliveira, F.L.F. de Quadros, A. Chabbi, T. Tiecher and D.R. dos Santos 126259
- Forward new paradigms for crop mineral nutrition and fertilization towards sustainable agriculture  
G. Lemaire, L. Tang, G. Bélanger, Y. Zhu and M.-H. Jeuffroy 126248
- Drought tolerance of sugar beet – Evaluation of genotypic differences in yield potential and yield stability under varying environmental conditions  
H. Ebmeyer, K. Fiedler-Wiechers and C.M. Hoffmann 126262
