

Preface

The Third Special Issue of The Horticulture Journal—Plant factory and modern greenhouse—E. Goto and Y. Ibaraki	145
---	-----

Invited Review

Time-varying Photosynthetic Photon Flux Density and Relative Spectral Photon Flux Density Distribution to Improve Plant Growth and Morphology in Plant Factories with Artificial LightingT. Jishi and K. Fujiwara	147
--	-----

Original Articles

Effect of Nutrient Quantitative Management on Potassium and Sodium Concentration in Low-potassium LettuceH. Xu, M. Johkan, S. Tsukagoshi and T. Maruo	154
--	-----

Production of Low-potassium Fruit of Potted and Fertigated Southern Highbush Blueberry (<i>Vaccinium corymbosum</i> L. interspecific hybrid)S. Takahashi, J. Che, N. Horiuchi, H. Y. Cho, S. Onwona-Agyeman, K. Kojima, M. Yamada and I. Ogiwara	161
--	-----

Noninvasive Diagnosis of Seedless Fruit Using Deep Learning in PersimmonK. Masuda, M. Suzuki, K. Baba, K. Takeshita, T. Suzuki, M. Sugiura, T. Niikawa, S. Uchida and T. Akagi	172
---	-----

Estimation of Leaf Emergence in 'Delaware' Grape from Daily Mean Temperature to Predict the Optimal Timing for Gibberellic Acid Application to Achieve SeedlessnessM. Kamimori, Y. Miwa, T. Isobe and A. Hosomi	181
--	-----

An Empirical Method for Diagnosing Premature Bolting Risk in Spring Cabbage by Estimating the Flower Bud Differentiation PeriodA. Takada, K. Okada and K. Toyota	190
---	-----

Plant Hormone Changes in Growing Small Watermelon FruitK. Kojima, D. Andou and M. Ito	202
--	-----

Identification of Genetic Factors Affecting Fruit Weight in the Tomato (<i>Solanum lycopersicum</i> L.) Cultivar 'Micro-Tom'R. Takisawa, A. Nishida, E. Maai, K. Nishimura, R. Nakano and T. Nakazaki	209
---	-----

Physiological Characterization of Tomato Introgression Line IL5-4 That Increases Brix and Blossom-end Rot in Ripening FruitC. Matsumoto, H. Yada, C. Hayakawa, K. Hoshino, H. Hirai, K. Kato and H. Ikeda	215
--	-----

Contribution of the <i>Rhododendron ripense</i> Makino Chloroplast Genome to the Development of Evergreen Azalea CultivarsN. Kobayashi, A. Nakatsuka, H. Ohta, Y. Kurashige, T. Handa, V. Scariot, M. Caser, S. Demasi, J. De Rick, E. De Keyser and J. Van Huylenbroeck	223
---	-----

Author Instructions.....	232
