

EDITORIAL

- 717 Powers of qualitative research
- 717 Assessing the world today

BOOKS & ARTS

- 718 On our bookshelf
Bronwyn Wake

RESEARCH HIGHLIGHTS

- 719 Our choice from the recent literature

NEWS & VIEWS

- 721 **Climate services: Unfulfilled promise of better decisions**
Meaghan Daly
- 722 **Climate policy: Cost of non-uniform climate policies**
Aleh Cherp
- 724 **Ocean-atmosphere interaction: Refining El Niño projections**
Shineng Hu
- 725 **Hydrology: Humans, climate and streamflow**
Gabriele Villarini and Conrad Wasko
- 727 **Climate change ecology: The declining tropical carbon sink**
Anja Rammig and David M. Lapola
- 728 **Warming undermines survival: Double jeopardy for fish diversity**
Joseph Flannery-Sutherland
- 730 **Snapshot: Listen to the world change**
Tegan Armarego-Marriott

ARTICLES

- 731 **Climate services promise better decisions but mainly focus on better data**
Kieran Findlater, Sophie Webber, Milind Kandlikar and Simon Donner
→N&V p721
- 738 **The surprisingly inexpensive cost of state-driven emission control strategies**
Wei Peng et al.
→N&V p722
- 746 **Extreme sea levels at different global warming levels**
Claudia Tebaldi et al.
- 752 **Robust decrease in El Niño/Southern Oscillation amplitude under long-term warming**
Christopher W. Callahan et al.
- 758 **Future high-resolution El Niño/Southern Oscillation dynamics**
Christian Wengel et al.
→N&V p724

- 766 **Differences in the temperature dependence of wetland CO₂ and CH₄ emissions vary with water table depth**
Hongyang Chen, Xiao Xu, Changming Fang, Bo Li and Ming Nie
- 772 **Increasing impact of warm droughts on northern ecosystem productivity over recent decades**
David Gampe et al.
- 780 **Rapid, but limited, zooplankton adaptation to simultaneous warming and acidification**
Hans G. Dam et al.
- 787 **Historical warming consistently decreased size, dispersal and speciation rate of fish**
Jorge Avaria-Llautureo et al.
→N&V p728

AMENDMENTS

- 794 **Author Correction: The climate mitigation opportunity behind global power transmission and distribution**
Kavita Surana and Sarah M. Jordaan
