### **SPECIAL ISSUE: WASTE MANAGEMENT AND ENVIRONMENTAL SUSTAINABLE DEVELOPMENT**

**Guest Editors: Professor Sang-Bing Tsai, Professor Chia-Huei Wu, Professor B.B. Gupta, Professor Wei Liu, Professor Zhe Zhang and Professor Lianyong Qi**

- 307 **Preface**  
*Sang-Bing Tsai, Chia-Huei Wu, B.B. Gupta, Wei Liu, Zhe Zhang and Lianyong Qi*
- 311 **Demonstration of urban environmental protection planning and ecological construction index system**  
*Xiaotang Xia and Tingyang Li*
- 329 **Integration of industry and city and economic development based on environmental sustainable development**  
*Xiaoying Wan*
- 346 **Innovation of enterprise environmental cost management path from the perspective of sustainable development**  
*Shuying Shang and Ze-ming Chen*
- 364 **Evaluation method and promotion countermeasures of green competitiveness for industrial enterprises under the background of environmental protection**  
*Qiang Mao*
- 375 **Application of GIS remote sensing information integration in eco-environmental quality monitoring**  
*Di Yao*
- 390 **Reliability analysis of vacuum circuit breaker with permanent magnet material actuator based on competitive failure model**  
*Yan Mu, Yongxing Wang and Jiyan Zou*
- 404 **Evaluation of the construction of water rights transaction system in the Yellow River Basin**  
*XiaoMin Liu, Haibin Shi, Zheng Wan, Haiyan Liu and Xiaoxu Liu*
- 424 **Energy and exergy analysis of a CI engine fuelled with blend of liquid hydrocarbon waste plastics fuels and diesel**  
*Nabnit Panigrahi and Sruti Ranjan Mishra*
- 442 **Strategic relationship between water conservancy project construction and environmentally sustainable development**  
*Lu Zhang, Zhen Tang, Sulu Zhu and Yuan Song*

457	<b>Simulation research of water flowing fracture zone of overburden strata in fully mechanised caving mining</b> <i>XiaoMin Liu, Haiyan Liu, Zheng Wan, Lifei Wang and Haifeng Pei</i>
474	<b>Simulation experimental study on the influence of plow pan on water infiltration in dry land</b> <i>Xiuyuan Lu, Li Zhao and Kaijian Wu</i>
493	<b>The environmental protection path of world cultural heritage sites from the perspective of circular economy</b> <i>Zhengfa Xie</i>
