

PLANT DISEASE RESEARCH

VOLUME 36(2)

CONTENTS

Presidential Address

- Trichoderma* based biological management of major fungal diseases in pulse crops 94
S. C. Dubey

Fungal Pathology

- Look into circadian rhythm in maize during *Bipolaris maydis* infection 101
Shweta Meshram and Robin Gogoi
- Management of Pythium rhizome rot of ginger by surfactant producing rhizobacteria 106
Sharavanan, P.T.
- Antagonistic efficacy of fungal endophytes of cherry tomato against its soil-borne pathogens 117
Imtitula Longchar and Susanta Banik
- Biochemical changes in groundnut cultivars against early leaf spot disease (*Cercospora arachidicola*) 123
Vikash Kumar, Narendra Singh, Rakesh Kumar and A.L. Yadav
- Evaluation of fungicides against *Botryodiplodia theobromae* - the incitant of mango dieback and gummosis 129
Shalini Verma, Ankita Thakur and H.R. Gautam
- Growth and sporulation studies on some *Trichoderma* isolates of Nagaland 136
Nunni Tayeng and Susanta Banik
- Evaluation of finger millet germplasm for resistance to blast disease on the basis of morpho-biochemical parameters 143
V.P. Prajapati, R.F. Chaudhary, A.J. Deshmukh and R.P. Bambharolia
- Effect of salicylic acid and calcium chloride in induction of resistance against spot blotch of barley 149
Amrinder Kaur, Yogita Bohra and Vineet K. Sharma
- Management of gray leaf spot of tomato caused by *Stemphylium lycopersici* under protected cultivation 154
Mamta Devi, D.K. Banyal, Anudeep B.M. and Diksha Sinha
- Efficacy of different contact, combi and systemic fungicides against *Alternaria alternata* causing leaf blight in little millet 161
Boda Praveen, K.B. Palanna, Gutha Venkata Ramesh and A. Nagaraja
- Evaluation of various substrates for the mass multiplication of *Trichoderma* spp. 170
Patel J.V. and Amar Singh

Status of post harvest diseases affecting wheat production in Punjab <i>Ritu Bala, Subash Thapa, Jaspal Kaur, Puja Srivastava, Parminder S. Tak, Ramanna Koulagi, Yogita Bohra, Vineet K. Sharma and P.P.S. Pannu</i>	178
Effect of physical parameters on the sporulation and mycelial growth of <i>Alternaria brassicae</i> causing Alternaria leaf spot of mustard <i>Jasveer Singh, D.R. Kumhar, Santosh Kumari and A.L. Yadav</i>	184
Bacteriology	
Management of potato scab (<i>Streptomyces scabies</i>) by seed treatment with chemical and biocontrol agents <i>Hardeep Singh Sabhikhi and Mandeep Singh Hunjan</i>	188
Virology	
Screening of American cotton (<i>Gossypium hirsutum</i>) genotypes against cotton leaf curl associated begomoviruses <i>Tapish Pawar, Rupesh Kumar Arora, Shikha Sharma, Paramjit Singh and Manpreet Singh</i>	196
Short Communications	
Management of powdery mildew of grape with fungicides <i>Anita Arora, Amrinder Kaur, Harpreet Singh and N.K. Arora</i>	202
Evaluation of different fungicides for the management of sooty mould of cotton incited by <i>Capnodium</i> spp. <i>N.K. Yadav, Anupam Maharshi, Dalip Kumar and Narender Kumar</i>	205
Occurrence and status of sheath blight of rice in Kumaun region of Uttarakhand <i>Bhupesh Chandra Kabdwal, Roopali Sharma, Satya Kumar, K.P. Singh and R.M. Srivastava</i>	209
Abstracts of research papers - Proceedings of the National Symposium on <i>Strategic Plant Disease Management for Food Security</i> held at ICAR-Central Potato Research Institute, Shimla-171001 from December 6 th - 7 th , 2021	215
Proceedings of the General Body Meeting	271
Glimpses of National Symposium held at ICAR-CPRI, Shimla	274
News	279
Author Index	280
