

Contents

- Exploring expert perception of protected areas' vulnerability to biological invasions**
Daniele Paganelli, Luís Reino, César Capinha and Joana Ribeiro 126008
- Economic incentives for preserving biodiverse semi-natural pastures with calves from dairy cows**
Kristina Holmström, Karl-Ivar Kumm, Hans Andersson, Elisabet Nadeau, Katarina Arvidsson Segerkvist and Anna Hessel 126010
- High extinction risk and limited habitat connectivity of Muñoa's pampas cat, an endemic felid of the Uruguayan Savanna ecoregion**
Flávia P. Tirelli, Tatiane C. Trigo, Diego Queirolo, Carlos Benhur Kasper, Nadia Bou, Felipe Peters, Fábio D. Mazim, Juan Andrés Martínez-Lanfranco, Enrique M. González, Caroline Espinosa, Marina Favarini, Lucas Gonçalves da Silva, David W. Macdonald, Mauro Lucherini and Eduardo Eizirik 126009
- Landscape estimates of carrying capacity for grizzly bears using nutritional energy supply for management and conservation planning**
Cameron J.R. McClelland, Catherine K. Denny, Terrence A. Larsen, Gordon B. Stenhouse and Scott E. Nielsen 126018
- Potential contribution of OECMs to international area-based conservation targets in a biodiversity rich country, Spain**
D. Rodríguez-Rodríguez, A. Sánchez-Espinosa and D. Abdul Malak 126019
- Persistence of wild rabbit (*Oryctolagus cuniculus*) latrines and its implication for monitoring programs**
Carlos Rouco, Rafael Villafuerte, Juan Antonio Aguayo-Adán, Daniel Carrasco-Expósito, Silvia Íñigo-López, Hajar Jebblaoui, Julia Jiménez-Fernández, Juan Carlos Jiménez-Uceda, Delia Limones-Ceballos, María del Carmen López-Luengo, Andrea Luque-Roldán, Victoria Vidal-Jiménez and Simone Santoro 126021
- Using drone imagery analysis in rare plant demographic studies**
Kody R. Rominger, Alyson DeNittis and Susan E. Meyer 126020
- Willingness to pay for biodiversity conservation in Dachigam National Park, India**
Mohammad Younus Bhat and Arfat Ahmad Sofi 126022
- Species with insufficient data and red lists: The dilemma of the beach trigonal clam *Tivela mactroides***
Thais Fonseca Rech, Gabriel Akira Teshima Soto and Alexander Turra 126024
- Utilizing local community knowledge of the Philippine tarsier in assessing the Bilar population endangerment risk, and implications for conservation**
Filip J. Wojciechowski, Katarzyna A. Kaszycka and Julie B. Otadoy 126028

- A global review of the threats of mining on mid-sized and large mammals**
 Angele Tatiane Martins-Oliveira,
 Marina Zanin, Gustavo Rodrigues Canale,
 Cristiano Alves da Costa, Pedro V. Eisenlohr,
 Fabiana Cristina Silveira Alves de Melo and
 Fabiano Rodrigues de Melo 126025
- Responses of calcareous grassland plant communities to changed seasonal grazing management: Results of a 31 year study**
 Lucy E. Ridding, James M. Bullock,
 Kevin J. Walker, Clive Bealey and
 Richard F. Pywell 126026
- An efficient method for defining plant species under High Conservation Value (HCV) criterion 1 based on the IUCN Red List criteria: A case study using species endemic to Gabon**
 Nicolas Texier, Gilles Dauby, Ehoarn Bidault,
 Porter P. Lowry II, Davy U. Ikabanga and
 Tariq Stévert 126027
- The role of Natura 2000 in relation to breeding birds decline on multiple land cover types and policy implications**
 Alessia Portaccio, Marco Basile,
 Andrea Favaretto, Thomas Campagnaro,
 Davide Pettenella and Tommaso Sitzia 126023
- Use of specialized questioning techniques to detect decline in giraffe meat consumption**
 Kirstie A. Ruppert, Carly C. Sponarski,
 Elizabeth O. Davis, Symon Masiaine,
 Lexson Larpei, Jesus Lekalgitele,
 Ruth Lekupanai, Johnson Lekushan,
 Joseph Lemirgishan, Daniel Lenaipa,
 Jonathan Lenyakopiro, Sebastian Lerapayo,
 Maxwell Lororua, Jenna Stacy-Dawes and
 Jenny A. Glikman 126029
- Molecular tools against the illegal exploitation of the threatened Pacific seahorse *Hippocampus ingens* Girard, 1858**
 Alan Marín, Ruben Alfaro,
 Claudio Villegas-Llerena, Lorenzo E. Reyes-Flores,
 Irina B. Alvarez-Jaque, Christian Robles,
 Claudia Ingar, Carmen G. Yzásiga-Barrera,
 Leonardo L. Calado and Eliana Zelada-Mázmela 126030
- The restoration of heathland and mire from secondary woodland: How realistic are target vegetation communities?**
 Helen J. Read and Clive E. Bealey 125943
