

CONTENTS

Articles

- MA, J., CHEN, J., ZHANG, C., YANG, D., TANG, W., GAO, F., XIE, Y. & SUN, H.—
Development and characterisation of SSR markers in the potato rot nematode *Ditylenchus destructor* 959-969
- DAI, K., CAO, L., HUANG, Z., GU, X., CUI, Y., LI, J., LI, Y., XU, C. & HAN, R.— Influence of entomopathogenic nematodes, symbiotic bacteria and ascarosides on the dispersal behaviour of *Meloidogyne incognita* 971-981
- LARTEY, I., KRAVCHENKO, A., BONITO, G. & MELAKEBERHAN, H.— Parasitic variability of *Meloidogyne hapla* relative to soil groups and soil health conditions 983-992
- WEI, P., LI, Y., WANG, X., FENG, Y. & ZHANG, X.— Morphometric changes of the pine wood nematode, *Bursaphelenchus xylophilus* (Steiner & Buhner) Nickle, under different environmental conditions 993-1001
- TOMALAK, M.— Insect-parasitic phases in the development of the mycetophagous wood nematode, *Bursaphelenchus tryphloeii*, in its vector, an aspen bark beetle *Tryphloeus asperatus* 1003-1016
- NEUPANE, K., YAN, G. & PLAISANCE, A.— Evaluation of cover crops for reducing *Heterodera glycines* populations in microplot experiments 1017-1029
- SHIMADA, D. & JIMI, N.— Taxonomic revision of the free-living marine nematode genus *Deontostoma* (Enoplida: Leptosomatidae) and inclusion of a new species from the Southern Ocean 1031-1047
- JIANG, Y., HUANG, M., LI, C., HUA, C., QIN, R., CHANG, D., JIANG, D., ZHAO, L., WANG, X., YU, J. & WANG, C.— Responses of infective juveniles of the soybean cyst nematode (*Heterodera glycines*) and the root-knot nematodes (*Meloidogyne hapla*, *M. incognita*) to amino acids 1049-1062
- SINGH, S.M., SINGH, P.R., SINGH, M.O.K., SINGH, S.S., COUVREUR, M., BERT, W. & MEITEI, N.M.— New taxonomic information of *Cryphodera kalesari* (Nematoda: Heteroderidae) 1063-1072
- YUSHIN, V.V., GLIZNUTSA, L.A. & RYSS, A.— Ultrastructural detection of intracellular bacterial symbionts in the wood-inhabiting nematode *Bursaphelenchus mucronatus* (Nematoda: Aphelenchoididae) 1073-1083
