

CONTENTS**Review article**

- 1 Microplastics – an emerging threat in the Indian waterbodies
K. Reeha Mashirin and K. C. Chitra

Report

- 13 The interspecific abundance–occupancy relationship in rocky intertidal communities
Barbara van Genne and Ricardo A. Scrosati

Original articles

- 19 Relationships between environmental heterogeneity and fish beta diversity in a tropical bay
Rafaela de Sousa Gomes-Gonçalves and Francisco Gerson Araújo
- 32 First insights into population parameters and spatial distribution of the two morphotypes of *Mactra stultorum* (brownish and whitish) (Linnaeus, 1758) (Mollusca: Bivalvia) along the southwestern Spanish coast
Ana Rodríguez-Rúa, Marina Delgado, Luis Silva, Sara Román and Miguel Cojan
- 48 Under pressure: *Cassiopea andromeda* jellyfish exposed to increasing water temperature or lead, cadmium and anthropogenic gadolinium contamination
Pauline Béziat and Andreas Kunzmann

Report

- 64 Benthic community structure on offshore northern shrimp (*Pandalus borealis*) grounds north of Iceland
Ingibjörg G. Jónsdóttir, Chris Yesson, Kirsty M. Kemp and Steinunn H. Ólafsdóttir

Original articles

- 79 Megabenthic communities distributed in the outer margins of the Yucatan shelf and their relationship to environmental variables
J Rubio-Polania, D Torruco-Gómez, A González-Solis, R Rodríguez-Canul, M Améndola-Pimenta, I Mariño-Tapia, J Herrera-Silveira, F Árcaga-Cabrera, V Ceja-Moreno, J Romo-Alvarado, I Lizarraga-Castro and C Gutiérrez-Solis
- 104 Seasonal and interannual variations of the abundance of the dinoflagellate *Noctiluca scintillans* in the northern Black Sea
Yuliya A. Zagorodnyaya and Sergey A. Piontkovski
- 117 Spatio-temporal variations in culturable bacterial community associated with denitrification in the Arabian Sea oxygen minimum zone
Ujwala Amberkar and Rakhee Khandeparker
- 131 Underwater photo-identification of sperm whales (*Physeter macrocephalus*) off Mauritius
Sarano Véronique, Sarano François, Girardet Justine, Preud'homme Axel, Vitry Hugues, Heuzey René, Sarano Marion, Delfour Fabienne, Glotin Hervé, Adam Olivier, Madon Bénédicte and Jung Jean-Luc
- 147 Preferential prey and attacking strategy of the purple dye murex (*Bolinus brandaris*) on three common bivalve species from Tunisia (Central Mediterranean Sea)
Youssef Lahbib, Paulo Vasconcelos, Sami Abidli, Carlos M. Barroso, Najoua Trigui El Menif and Miguel B. Gaspar
- 160 Study of the characteristics of intestinal bacteria of little yellow croaker (*Larimichthys polyactis*) and big head croaker (*Collichthys lucidus*) from the Lyusi fishing ground
Shixuan Chen, Hao Xu, Shuo Zhang and Wenwen Yu
