

Volume 87 Issue 5
October 2022

Effects of arbuscular mycorrhizal fungi and exogenous polyamines on the growth and root system architecture of tree peony seedlings from embryo culture

Li Xu | Fangyun Cheng | Yuan Zhong

Effect of partial root drying on morphology, physiology and quality of 'Maltaise Ballerin' citrus cultivar

N. El Bey | M.K. Aounallah | C. Karmous | T. Bettaieb | A. Sahli

Integrative analysis on insect-resistant characteristics and widely targeted metabolic differences of *Malus sieversii*

Chuang Mei | Xiaoyan Zhang | Peng Yan | Aisajan Mamat | Liqun Han | Kai Ma | Haixia Zhong | Jixun Wang

Development of cantaloupe (*Cucumis melo*) lines carrying *Vat* gene with favorable fruit traits

P. Jariani | H. Ramshini | M. Lotfi | F. Amini | H. Abtahi | R. Ahmadvand

Comprehensive analysis of lysine acetylation reveals the function of acetylated protein in the synthesis of Eu-rubber in *Eucommia ulmoides* Oliver leaves

Hufang Chen | Baohui Zhang | Lu Wang | Xinzhuan Yao | Litang Lu

Study of the compositional, biochemical and nutritive variability of *Ceratonia siliqua* populations as potential material for carob tree breeding

I. Souheila Naghmouchi | R. Khadiga Alharbi | Y. Kaouther Mechergui | I. Maha Al-Zaben | A. Sulaiman Alhuwairini
