

Contents

Prefacevii
Chapter 1	Boreal Forest Resources in the System of Regulating of the Carbon Cycle and Mitigating of the Climate Fluctuations (Predictive Empirical-Statistical Modeling).....1 Erland G. Kolomyts
Chapter 2	Application of Eutectic Solvents in the Extraction of Bioactive Components from Medicinal Plants: Procedure, Possibilities, Advantages and Limitations of the Process.....53 Martina Jakovljević and Maja Molnar
Chapter 3	Level, Factors and Importance of Environmental Sustainability of Bulgarian Agriculture.....95 Hrabrin Bachev
Chapter 4	Trends of Accountability Management for Environmental Sustainability: Evidence from the Italian Maritime Protected Areas (MPAs).....137 F. De Matteis, S. Lippolis and G. Notaristefano

Contents

Chapter 5	Urban Canopy-Atmosphere Interaction Parameterization Applied to Regional Atmospheric Models.....	169
	Marcos Vinicius Bueno de Moraes and Viviana Vanesa Urbina Guerrero	
Chapter 6	Phytoestrogens and Their Effects.....	195
	Merve Bacanlı and Hatice Gül Anlar	
Chapter 7	The Introduction of Indexes to Measure Environmental Sustainability. The Cases of the Available Resource Sustainability Index and Natural Green Surface Replacement Index.....	219
	Rubén D. Piacentini	
Contents of Earlier Volumes.....		239
Index		245
