

**CONTENTS**

**Review article**

- 1 Ergot alkaloids in New Zealand pastures and their impact  
*J. R. Caradus, S. D. Card, S. C. Finch, D. E. Hume, L. J. Johnson, W. J. Mace and A. J. Popay*

**Research articles**

- 42 Impacts of pasture species and ruminant urine on N<sub>2</sub>O emissions and nitrogen transforming microbial communities in soil mesocosms  
*M. D. des Roseaux, S. Shi, A. M. Duff, F. P. Brennan, L. Condrón, J. A. Finn, K. G. Richards, M. O'Callaghan and T. J. Clough*
- 63 Water and nitrogen stress effects on canopy development and biomass allocation in fodder beet (*Beta vulgaris* L.)  
*E. N. Khaembah, S. Maley, R. Gillespie, M. George, A. J. Michel, E. Chakwizira, J. de Ruiter and E. Teixeira*
- 82 The use of GPS data to assess behaviour of red deer hinds over calving: hinds farmed in extensive high-country environments  
*G. W. Asher, A. J. Wall, K. T. O'Neill, J. F. Ward and R. P. Littlejohn*

**Short communication**

- 103 Total soil cadmium concentrations in the Winchmore long-term phosphorus fertiliser trial are still increasing  
*C. W. Gray, R. W. McDowell and A. D. L. Noble*
