

Volume 87 | Issue 1
February 2022

Assessment and zoning of suitable climate for economic development of cultivation of Sunflower (*Helianthus annuus*) garden crop (Ardabil Province, Iran)

A. Fatahi | V. Safarian Zengir | B. Sobhani | M. Kianian | A. Ghahremani

Morphological variability of indigenous cherry plum (*Prunus divaricata* Ledeb.) accessions

P. Heidari | M. Sahebi | E. Azadvari | S. Lawson | M. Rezaei | A. Khadivi

Biochemical characterization of an alcohol dehydrogenase from *Pyrus ussuriensis* 'Nanguoli'

Qin Gaihua | Liu Chunyan | Gao Zhenghui | Li Jiyu | Qi Yongjie | Pan Haifa | Yi Xingkai | Xu Yiliu

Leaf structural and physiological factors for winter dormancy color of zoysiagrass (*Zoysia* spp. Willd.)

Lijuan Xie | Huisen Zhu | Huimin Guo | Deying Li

Effects of different cultivation strategies on soil nutrients and bacterial diversity in kiwifruit orchards

Li Tengfei | Liu Chongyi | Jin Xumei | Cao Xinyue | Lin Ziqi | Lu Qi | Long Mingxiu | He Shubin

Apple varieties from Kazakhstan and their relation to foreign cultivars assessed with RosBREED 10K SNP array

D. Gritsenko | A. Pozharskiy | S. Dolgikh | K. Aubakirova | R. Kenzhebekova | N. Galiakparov | N. Karimov | S. Sadykov

Covering young 'Reed' avocado trees with shading nets during winter alleviates cold stress and promotes vegetative growth

S. Chernoiyanov | I. Neuberger | S. Levy | N. Szenes | L. Rubinovich

Diversity analysis of kiwifruit germplasm resources and quality resources selection based on fruit characters in the south of Jiangxi province

Zhengxin Lv | Yanqun He | Qing Liu | Chunhui Huang | Dongfeng Jia | Xiaobiao Xu

The potential effects of drip irrigation on soil environment, root distribution and yield of greenhouse tomato

Jiankun Ge | Xuewen Gong | Yanfei Liu | Haorui Chen | Huaiwei Sun | Seydou Traore | Lei Zhang

Varietal evaluation of postharvest behavior in apricot fruits

J.A. Salazar | P. Martínez-Gómez | D. Ruiz

A competition between flowers and chocolate: Consumer perception on the utility of flower gifts for Valentine's Day from the perspective of perfect gift theory

Li-Chun Huang

Apple peel extracts as preservation solution to maintain the quality of fresh-cut apples

S. Bartolini | L. Pozzo | F. Venturi | C. Sanmartin | I. Taglieri | M. Macaluso | A. Trivellini | M. Orlando | A. Zinnai | A. Mensuali Sodi
