

CONTENTS

Review

- 273 A review of powdery mildew in strawberries: the resistance of species, hybrids and cultivars to the pathogen is highly variable within and across studies with no standard method for assessing the disease
Christopher Michael Menzel
- 298 Progress of genus *Hemerocallis* in traditional uses, phytochemistry, and pharmacology
Xiaoke Li, Shan Jiang, Jinlong Cui, Xuemei Qin and Gang Zhang
- Articles**
- 315 Heterologous expression of the peach sucrose transporter (PpSUT2) in increased cold and drought stress tolerance in tobacco
Wei Zhao, Haijun Meng, Jiangli Shi, Yonghui Liu, Ying Yang, Lin Li, Cuiyun Wu, Lei Wang and Guoliang Wu
- 328 Change in the unseasonal flowering occurrence on hydrangea basal shoots under forcing condition
Yoshikuni Kitamura, Kotaro Shimoyama, Tetsuya Hattori and Yoko Kawanishi
- 336 Floral initiation in gooseberry (*Ribes uva-crispa* L.) and its control by daylength and temperature
A. Sønsteby, R. Rivero, T. L. Woznicki and O. M. Heide
- 346 Postharvest application of single, multi-walled carbon nanotubes and nanographene oxide improves rose keeping quality
Masoumeh Ahmadi-Majd, Abdolhossein Rezaei Nejad, Sadegh Mousavi-Fard and Dimitrios Fanourakis
- 361 Photosensitization mediated retention of nutritional quality of banana during its postharvest storage
Sayali More and T. V. Ramana Rao
- 376 Ripening mechanism of astringent persimmon by ethylene under cold storage
DoSu Park, Shimeles Tilahun and Cheon Soon Jeong
- 385 Health-promoting bioactive compounds and related enzymes of grape (*Vitis Vinifera* L.) in response to regulated deficit irrigation under greenhouse and rain-shelter
Xiaojuan An, Yinli Liang, Shuaimeng Zhu, Lan Mu and Hongfei Yin
