

*AGRICULTURAL ECONOMICS*

- Attila Jambor and Dorottya Czirk** – Competitiveness in international orange trade ..... 185
- Richard Pospisil** – The financial impact of mad cow disease to public budgets in Czech Republic from 2001–2019..... 196

*AGRICULTURAL MANAGEMENT*

- Soo-Eun Kim and Jun Ho Seok** – Price transmission between GMO-free organic and conventional milk in Austria..... 205

*ECOLOGICAL FARMING*

- Irina Gazdanova, Fatima Gerieva and Timur Morgoev** – The effectiveness of the use of biological preparations in the production of potatoes..... 212
- Nguyen Quoc Khuong, Le Thanh Quang, Le Vinh Thuc, Tran Ngoc Huu, Le Thi My Thu, Tran Thi Bich Van, Do Thi Xuan, Nguyen Hong Hue, Nguyen Thi Thai Le, Pham Duy Tien, Tran Chi Nhan, Ly Ngoc Thanh Xuan and Nguyen Thi Thanh Xuan** – Potential of endophytic phosphorus-solubilizing bacteria to improve soil fertility, P uptake, and yield of maize (*Zea mays* L.) cultivated in alluvial soil in dikes in Vietnam ..... 217
- Vera Oktavia Subardja, Reginalanti Hindersah, Rija Sudirja and Pujawati Suryatmana** – Effect of *Azotobacter* sp. inoculation on sweet potatoes (*Ipomoea batatas* L.) yield in lead-contaminated soil..... 229
- Chandni Upadhyaya and Ishita Patel** – Evaluation of mechanism of plant protective attributes of root colonizing bacteria against phytopathogenic fungi..... 238

*SUSTAINABLE AGRICULTURE*

- Sonya Ivanova, Tanya Nikolova and Albena Dimitrova** – Effect of the probiotic BAYKAL EM-1 on some hematological and biochemical parameters and faecal score of suckling pigs..... 242
- Yehia Abd El-Rahman Yehia and M. M. Soliman Doaa Mamdouh** – An analytical study of investment in the use of treated wastewater project in the Egyptian agricultural sector ..... 250
- Jeny Miteva-Staleva, Rumyana Eneva and Venelin Hubenov** – Fungi and their potential for biofuels production (review)..... 265

*PLANT SCIENCE*

- Evgeniy Dimitrov, Zlatina Uhr and Radoslav Chipilski** – Study of yield and stability by common winter wheat varieties by changing climatic conditions in Sadovo region..... 271
- Galya Dobrevska, Petya Ivanova and Manol Dallev** – Influence of agricultural cultivation methods on the physicochemical and colour parameters of Florina variety apples immediately after harvest ..... 279
- Nikolay Dyulgerov and Boryana Dyulgerova** – Morphological and yield-related traits of semi-dwarf and mid-tall cultivars of spring barley under Southeast Bulgarian conditions..... 284
- Mariya Gerdzhikova, Mima Todorova, Neli Grozeva, Ana Dobрева and Nadezhda Petkova** – Chemical composition, *in vitro* gas production and relative feed value of rose flower wastes (*Rosa damascena* Mill.) from conventional and organic production ..... 291
- Galina Naydenova Mariana Radkova and Anelia Iantcheva** – Moldovan soybean varieties testing in the condition of North Bulgaria..... 299

## *PLANT GENETICS*

- Neli Grozeva and Stefka Atanassova** – Karyological and morphological variability of *Suaeda salsa* (L.) Pall. in Bulgaria ..... 305

## *AGROCHEMISTRY, SOIL SCIENCE AND ECOLOGY*

- Zdravka Petkova, Tsetska Simeonova, Maya Benkova, Lyuba Nenova, Iliana Gerasimova, Vanya Lozanova, Ani Katsarova, Martin Nenov, Irena Atanasova and Margarita Nikolova** – Determination of the soil equivalent in leached smolnitsa and alluvial-meadow soils by pot experiment ..... 314
- Toma Shishkov and Emil Dimitrov** – Diagnostic of soil forming processes of Zheltozem podzolic (pseudopodzolic) soils from Strandzha Mountain ..... 318

## *ANIMAL SCIENCE*

- Ivelina Nedeva, Todor Slavov, Veselin Radev, Dimitar Panayotov and Ivan Varlyakov** – Blood biochemical profile as an objective measure of welfare in Lacaune sheep ..... 324
- Dimitar Panayotov** – Body weight, morphometric measurements and number of teats of Boer goat does, reared in Bulgaria ..... 331
- Ivan G. Penchev, Sashka Chobanova, Nikolay Karkelanov** – Effect of different levels of high-protein sunflower meal in compound feeds on broiler's carcass characteristics and meat quality ..... 343

## *FOOD SCIENCE AND TECHNOLOGIES*

- Svilen Lazarov, Petya Veleva and Ivanka Zhelyazkova** – Physicochemical characteristics of Bulgarian bee honey: Part 1 ..... 349
- Mihail Milanov and Todor Stoyanchev** – Challenge test studies on *Listeria monocytogenes* grown in ready-to-eat dry cured pork product stored at home-simulated conditions ..... 355

## *AGRICULTURAL ENGINEERING*

- Igor Evgenievich Priporov** – Mathematical model of the separation process of sunflower seeds in innovative air-sieve grain-cleaning machine ..... 362
