

AGROCHIMICA

International Journal of Plant Chemistry,
Soil Science and Plant Nutrition
of the University of Pisa

Vol. 66 - No. 1 - January-March 2022

- S. PAL, P. PANWAR, R. P. YADAV, O. P. S. KHOLA, S. L. ARYA, P. L. BHUTIA - pag. 3
Modelling dynamics of soil organic carbon under different tillage systems
- C. CECCANTI, F. MAZZONI, L. GUIDI, S. BENVENUTI - pag. 15
Spinach-strawberry (*Chenopodium capitatum* (L.) Asch.) as a functional food: leaves, fruits or both?
- N., R. CHANDRA, N. PAREEK, K. P. RAVERKAR - pag. 29
Conjoint use of *Rhizobium* and PGPR in mung bean boosted soil health and productivity of succeeding wheat
- A.-F. S. SOROR, F. G. KHEDR, A. G. METWALLY, S. A.-R. ISMAIEL - pag. 43
Changes in the nutritional values of pea (*Pisum sativum* L.) grains under the effect of biostimulant application
- P. L. BHUTIA, B. GUPTA, R. P. YADAV, K. G. BHUTIA, P. BHUTIA, S. PAL, O. P. pag. 61
S. KHOLA - Soil carbon stock and floristic biomass carbon under different agroforestry systems along an elevation gradient
- P.M. BRINDHAVANI, T. CHITDESHWARI - pag. 77
Phosphorus release kinetics in slightly and moderately calcareous soils induced by low molecular weight organic acids and amino acids
