

## CONTENTS

**Reviews and symposia articles/Articles de revue**

- Who ART thou? ADP-ribosyltransferases and their role as virulence factors in phytopathogenic microorganisms  
*H. C. Perry and D. R.D. Bignell* 473

**Bacteria and phytoplasmas/Bactéries et phytoplasmes**

- Dickeya solani*, *Pectobacterium atrosepticum* and *Pseudomonas asplenii*: causal agents of bacterial soft rot in cyclamen plants (*Cyclamen persicum* Mill.) in Colombia  
*J. A. Rodríguez-Parra, J. P. Moreno-López and A. González-Almarino* 485

**Biochemistry/Biochimie**

- Assessment of deoxynivalenol and deoxynivalenol derivatives in *Fusarium graminearum*-inoculated Canadian maize inbreds  
*B. A. Blackwell, D. Schneiderman, I. Thapa, W. Bosnich, K. Pimentel, A. Z. Kebede, L. M. Reid and L. J. Harris* 504

**Disease control/Moyens de lutte**

- A strategy for controlling *Cercospora* leaf spot, caused by *Cercospora beticola*, by combining induced host resistance and chemical pathogen control and its implications for sugar beet yield  
*S. Z. Morsy, M. F. Shady, M. I. Gouda, B. A. Kamereldawla and M. A. S. Abdelrazek* 518

**Disease reports and disease diagnostics/Rapports des maladies**

- First report of *Pestalotiopsis biciliata* causing dieback on *Quercus coccifera* and *Pistacia lentiscus* in Tunisia  
*S. Hlaïem, I. Yangui, G. Della Rocca, S. Barberini, R. Danti and M. L. Ben Jamâa* 534

**Epidemiology/Épidémiologie**

- Fitness of homothallic and heterothallic isolates of *Phytophthora infestans* from Mexico  
*J. E. Retes-Manjarrez, G. A. López-Urquidez, R. Martínez Campos, R. Armenta Chavez, A. Douriet-Angulo, L. Molina-Cardenas and C. A. López-Orona* 542

**Forest diseases/Pathologie forestière**

- Phytophthora* species associated with red alder dieback in British Columbia, Canada  
*N. Feau, M. McDonald, B. Van Der Meer, Y. Zhang, P. Herath and R. C. Hamelin* 549

**Genetics and resistance/Génétique et résistance**

- Multiple resistance genes to leaf and stem rust in Brazilian wheat varieties 'BRS194' and 'Toropi'  
*M. B. Coelho, S. M. Scagliusi, B. McCallum, C. W. Hiebert, M. S. Chaves, S. P. Brammer, N. C. Lângaro and T. Fetch* 559

Differential growth of *Leptosphaeria maculans* in the stem of susceptible and partially resistant oilseed rape (*Brassica napus* L.) genotypes

- A. Levrel, J. Lemoine, M. Ermel, Y. Abu-Ahmad, A. Gravot and R. Delourme* 567

**Host-pathogen interactions/Interactions hôte-pathogène**

Cerato-platanin protein 1 is not critical for *Fusarium graminearum* growth and aggressiveness, but its overexpression provides an edge to *Fusarium* head blight in wheat

- A. Eranthodi, D. González-Peña Fundora, A. P. Montenegro Alonso, G. Bakkeren, R. Subramaniam, T. Ouellet, C. Rampitsch, M. Smith, R. K. Goyal, E. Schultz and N. A. Foroud* 577

**Soilborne diseases/Maladies telluriques**

Aggressiveness of isolates of five *Pythium* species on seeds and seedlings of six North American soybean cultivars  
*C. Paul and D. R. Walker*

596

**Virology/Virologie**

Elevated expression of ribosome-inactivating protein (RIP) genes in potyvirus-resistant watermelon in response to viral infection

*B. Chanda, S. Wu, Z. Fei, K. Ling and A. Levi*
