

Preface	vii
Chapter 1	Investigation of Environmental Pollution in Kosovo through Mosses as a Bioindicator	1
	Flamur Sopaj, Musaj Paçarizi, Trajče Stafilov, Krstev Tašev and Robert Šajn	
Chapter 2	Moss Biomonitoring of Organic Pollutants: Up-to-Date Achievements, Needs and Potentials	49
	Gordana Jovanović, Mira Aničić Urošević, Snježana Herceg Romanić, Gordana Mendaš, Milan Janković and Aleksandar Popović	
Chapter 3	Mosses as Bioindicators of Air Pollution with Rare Earth Elements in the Abundant As-Sb-Tl Mining Area	91
	Katerina Bačeva Andonovska, Robert Šajn, Claudiu Tănăselia and Trajče Stafilov	
Chapter 4	The Effects of Microbiological Life on Treatment of Acid Mine Drainage	125
	Belma Nural Yaman, Pınar Aytar Çelik and Ahmet Çabuk	
Chapter 5	Sustainable Development and Public-Private Partnership: What Are the Main Managerial Features of This Tool for Environmental Sustainability?	151
	Fabio De Matteis, Stella Lippolis and Giovanni Notaristefano	

Chapter 6	The Rapid Urban Sprawl and Its Impact on the Growth of Car Use: Policies to Mitigate Polluting Emission	177
	Saul Antonio Obregon Biosca, Miguel A. Perez-Lara and Jose Luis Reyes Araiza	
Chapter 7	New Investigation and Challenges for Spatiotemporal Drought Monitoring Using Soil Water in Arid Rangelands	205
	A. Zbiri and A. Hachmi	
Chapter 8	Environmental Impacts and Technologies for Remediation of Acid Mine Drainage: Current Situation and Perspectives	223
	Juliana A. Galhardi and Estefanía Baigorria	
Chapter 9	Hydroponics and Environmental Control as Powerful Tools for Enhancing the Functionality and Utilization of Prickly Pears	243
	Takanori Horibe	
	Contents of Earlier Volumes.....	253
	Index	259
