

**CONTENTS**

**Original articles**

- 415 The diet of juvenile Atlantic mackerel (*Scomber scombrus*) feeding in new northern nursery areas along the Norwegian coast  
*Vilde R. Bjørndal, Herdis L. Mørk, Kjell Rong Utne, Anders Fernö and Leif Nøttestad*
- 426 Simulating cyanide fishing: photosynthetic effects of short-term cyanide exposure in three different hermatypic coral species  
*Karin Springer, Beatrice Brix da Costa, Sam Samsuardi and Andreas Kunzmann*
- 435 Summer diet and feeding strategy of Pacific cod (*Gadus macrocephalus*) inhabiting the southern coast of Hokkaido, Japan  
*Rongfu Wang, Masayuki Chimura, Kazuhiro Sadayasu, Mitsuhiro Ishino and Orio Yamamura*
- 448 Growth and reproductive traits of deep-sea pen *Anthoptilum murrayi* Kölliker, 1880, from Iceland (North Atlantic)  
*Francisco J. García-Cárdenas and Pablo J. López-González*
- 466 Distributional patterns of two sympatric blue crabs (*Callinectes*) and the implications for conservation management at the South-west Atlantic subtropical shelf  
*Daphine Ramiro Herrera and Rogerio Caetano da Costa*
- 477 Community structure of megabenthos of Perdido Fold Belt (Tamaulipas, Mexico) and its relationship with the oceanographic and sediment parameters including potential pollutants  
*J. C. Rubio-Polania, A. González-Solis, C. Enriquez, F. Árcega-Cabrera, V. Ceja-Moreno, L. Cetina-Euan, R. Poot-Aguayo, F. Nuñez-Chan and D. Torruco*
- 495 Short-term microplastic exposure triggers cellular damage through oxidative stress in the soft coral *Coelogorgia palmosa*  
*Enrico Montalbetti, Valerio Isa, Sara Vencato, Yohan Louis, Simone Montano, Silvia Lavorano, Davide Maggioni, Paolo Galli and Davide Seveso*
