## REVIEWS

### Crop Science

- 303 Breeding and Agronomic Research on Lodging Resistance and Culm Strength of Japanese Wheat Cultivars

Hiromi MATSUYAMA

### Agricultural Environment

- 313 Blast Disease of Ryegrass in Japan: The Characteristics, Geographical Distribution, and Control by Fungicide-coated Seeds

Takao TSUKIBOSHI

### Food

- 321 Predicting the Growth Behavior of Foodborne Pathogenic Bacteria by Real-time Polymerase Chain Reaction Method

Fia NOVIYANTI, Yukie HOSOTANI,  
Yasuhiro INATSU &  
Susumu KAWASAKI

## ARTICLES

### Crop Science

- 329 Development of Cultivar Identification System Using 12 InDel Markers for Widely Distributed Citrus Cultivars in Japan

Tomoko ENDO, Hiroshi FUJII &  
Takehiko SHIMADA

### Agricultural Environment

- 341 Effects of Cattle Biogas Effluent Application and Irrigation Regimes on Rice Growth and Yield: A Mesocosm Experiment

Khanh Cong HUYNH,  
Kazunori MINAMIKAWA,  
Ngan Vo Chau NGUYEN,  
Chiem Huu NGUYEN &  
Cong Van NGUYEN

- 349 Soil Fertility Management and Grassland Renovation on Dairy Farms in Japan: Regional Differences between Hokkaido and Other Prefectures

Akinori MORI, Yuma MICHINOBU,  
Akira MIYATA,  
Takehiko MATSUMOTO,  
Shoji MATSUURA,  
Mikinori TSUIKI, Takatoshi ARITA,  
Mariko SHIMIZU &  
Ryusuke HATANO

## Contents

Vol. 56 No. 4 2022

---

### Social Science

- 357 The Impact of COVID-19 on Global Indica and Japonica Rice Markets: Examining by an Endogenous Agricultural Investment Model      Tatsuji KOIZUMI & Gen FURUHASHI
- 375 Reproducibility of Forecasting Agricultural Price Fluctuations Several Months Ahead of the Harvest Time      Yoji KUNIMITSU & Toshichika IIZUMI

### Horticulture

- 389 Prediction of Developmental Changes due to Climate Change in 'Delaware' Grapes in Osaka, Japan, based on Simulated Data      Masahiro KAMIMORI & Kazuya HIRAMATSU

### Animal Science

- 399 Coinfection with *Candida tropicalis* and Cytomegalovirus in a Piglet      Yuuto KAWASHIMA,  
Hiroyasu TAKAHASHI,  
Kiyoko NOBUMOTO,  
Yasuko HANAFUSA,  
Tomoyuki SHIBAHARA,  
Osamu MIKAMI,  
Yoshio KIKU & Koichi KADOTA

### Biomass Utilization

- 405 Bioethanol Production from Various Plant Materials via Solid-state Fermentation      Mitsuo HORITA & Takako KIYOSHI
