

REVIEW PAPERS

- Chang-Hung Chou and Chao-Min Wang (Taiwan).** Allelopathy Research: Past, Present and Future Part III. Allelochemicals used as pharmaceuticals 1
- K.M. Zhang, Y.X. Guo, Z.L. Zhang and N. Amist (China).** Allelopathic plants: 36. Ginseng (*Panax*) species 13

RESEARCH PAPERS

- Y.Y. Gong and F. Yan (China).** Soybean (*Glycine max* L) soil sickness: Identification of allelochemicals in its decomposing residues 37
- Yi Kuang, Xiating Shen, Diego A. Sampietro and Shengxiang Yang (China).** Optimization of ultrasound-assisted aqueous 2-phase extraction system of carotenoid-allelochemicals from sweet potato roots by response surface methodology 45
- G. Erida, N. Saidi, Rosmaiti, Rahmaddiansyah, E. Nurahmi and Jumini (Indonesia).** Bibliometric Analysis of Allelopathy Journal 57
- Kuldeep Singh, Amit Kumar, Mohit and Anil Kumar Siwach (India).** Bibliometric analysis of Allelopathy Journal. 69
- Muhammad Afzal, Ejaz Ahmed, Ahsan Sharif and Arshad Javaid (Pakistan).** Antifungal potential of two new triterpenoidal glycosides from the *Albizia kalkora* against *Fusarium oxysporum* f. sp. *lycopersici* 83
- N. Sharma, J. Parshad, D.V. Pathak, B. S. Saharan and M. Kayasth (India)** Biocontrol of citrus thrips using chitinase producing *Achromobacter xylosoxidans* bacteria 93
